ALMA MURDER CASE GOES TO JURY TODAY

F. E. Withrow and R. S. Cowie Address Jury for Defense! Schuyler Gilman for State After Recess

STATE SEEKS TO DISCREDIT TESTIMONY OF WOMAN, BEHNER

Buehler Attacks Credulity of Accused in Opening Address for Prosecution

ALMA, Wis. — (Special.) — Frank E. Withrow and R. S. Cowie, attorneys for Enos Behner, on trial here on a charge of shooting to death City Marshal John Gantenbein occupied all of the morning session Friday in circuit court addressing the jury. Mr Withrow spoke from 9 o'clock to 10:15 and was followed by Mr. Cowie, who spoke until 11:45, when the noon adjournment was taken.

Schuyler Gilman, who has directed the prosecution of the case, began the closing address to the jury for the state at 1:30 p. m. The case is expected to go to the jury late this afternoon.

Attempt to Discredit

The state called three witnesses to the stand in an attempt to discredit the testimony of Mrs. Cecil Stout Pusy. She had declared that Allen Gantenbein while intoxicated and brandishing a gun had threatened to shoot her unless she promised to marry him. The three, George M. Miller, Frank Harry and Fred Reiter, all of Alma, asserted that the reputation of Mrs. Pusy in Alma for truth and veracity was bad.

Under the fire of a grilling cross examination by Attorney Cowie two admitted that they did not know the meanings of the word veracity. They had been subpoenaed as witnesses during the noon recess they said shortly after Mrs. Pusy had been on the stand. They were unable to mention the name of any one who had ever called her a liar. The attorney suggested that they had confused the meaning of the word veracity with that of virtue.

Before the state rested its rebuttal the three men who say they were eyewitnesses of the shooting, Walter Rupp, William Reinagle and Norbert Ruplin, took the stand. Attorney Broadfoot read various passages from the testimony of Behner bearing on facts in dispute between the state and the defense and in each case they flatly contradicted the statement of the accused.

Rupp on Stand

Rupp denied that he told Behner that Ike, meaning Allen Gantenbein, was coming down to murder him, that he had better leave the country because Ike was after him and always got any man he was after, that Ike would stamp him to the ground. All three declared emphatically that the following statements of Behner were false: That Allen threatened to smash Behner's face, That Behner asked Rupp to keep Allen away from him when they were quarreling behind the bar; That Rupp told Allen not to have any trouble on his account; That Allen warned Behner that if he got out of the saloon he should keep right on going or Allen would stamp him into the ground; That the three went to the door then came back; That Allen and Rupp came back behind the bar and renewed the struggle with Behner; That Rupp said "You know I am a respectable business man in this town and a dirty cur like you ordering me out of a saloon ought to be tarred and feathered and run out of town;" That Allen told Rupp to "smash him in the face, if he hits you I'll knock his head off his shoulders." That Behner went to the back door and before leaving told them to "get out because I want to lock up;" That the three after leaving the saloon started walking north as Behner and John Gantenbein entered; That in front of the saloon John asked what the trouble was. Allen replied he was going to smash Behner's face and Behner pleaded with John for protection from his son. That Behner tried to close the door but was prevented from doing so when Allen threw his body against the door; That Behner walked behind the bar and took a gun

LA FOLLETTE COMES OUT IN OPPOSITION TO PLAN TO ABOLISH STATE GUARD

MADISON, Wis.—Senator Robert M. La Follette is opposed to abolition of the national guard, he advised today in a statement issued at Washington. He declares that he "agreed with Governor Blaine that such a policy would be unwise."

"I believe that in these times when we are making every effort to curtail the expenses of the state government we can wisely cut down the appropriations for military purposes without in any way impairing the efficiency of the national guard for its legitimate functions," he said.

"As anyone knows I have long opposed extravagant expenditures for military purposes in peace times. To abolish the national guard at this time, however, would give the militarists of the nation an opportunity to urge an increase in our standing army and to augment our federal expenditures for war purposes.

"The Wisconsin national guard should be efficiently and economically administered and in no case should it be employed as it often is used to aid the powerful corporate interests in oppressing their employes. The people of Wisconsin may be confident that so long as the state remains under progressive control, our national guard will not be misused to promote private interests at the expense of the public."

WALLACE APPROVES LENROOT-ANDERSON FARM CREDITS BILL

Offers Satisfactory Basis for Real Rural Credit System He Tells Gopher

TAKES ISSUE WITH MELLON APPROVAL OF CAPPER BILL

Latter Measure Not Substitute for Lenroot Bill Claims Wallace

WASHINGTON, D. C.—Belief that the Lenroot-Anderson bill as it was passed by the senate "offers a satisfactory basis for a real rural credit system which would promote more stable farm production and more orderly marketing," was expressed Friday by Secretary Wallace of the agricultural department, in a letter to Representative Anderson, republican of Minnesota, co-author of the measure.

Declaring he could see no strong objection to the enactment of the Capper bill, which also received senate approval recently and is now pending before a house committee, Mr. Wallace said that to offer it as a "rural credits bill or as a substitute for the Lenroot-Anderson bill would give the farmers of the nation the best reasons for feeling that in reply to their request for bread they had been offered a stone."

Mr. Wallace's letter was accepted by many members of the house as taking direct issue with a letter recently sent by Secretary Mellon of the treasury to Chairman McFadden of the house banking committee expressing preference for the Capper bill and declaring provisions of the Lenroot Anderson bill "dangerous" and "unworkable."

The Lenroot-Anderson bill as sent to the house from the senate, Mr. Wallace said, "has received the cordial approval of the president and has been received by the farmers of the country as a well considered effort to meet their credit needs."

MEMORIAL TREES TO HONOR MRS. LOGAN ASKED BY SOCIETY

WASHINGTON. — The American Tree association announced that it would issue a call for the planting of memorial trees for Mrs. John A. Logan, widow of the Civil war general, who died here Thursday. With expressions of regret at headquarters of the association here at Mrs. Logan's death, it was recalled that one of her last public acts was the planting of a memorial tree for Clara Barton. She also helped to inaugurate plans of the Women's Relief corps for planting a memorial tree for Clara Barton wherever there is a G. A. R. post.

THREE PLY OFFICIAL MUST QUIT SOME JOBS

JEFFERSON, Wis.— Because of action by the county board here on Tuesday a county officer who has been holding three offices may be forced to give up at least one of them. Each of the positions he holds occupies but a portion of his time and several members of the board sought to prevent him from being ousted from any of the offices.

NEARLY BLINDED BY BLAST

WIFE OF MISSING VIROQUA MERCHANT INTERVIEWS POLICE

Believe Checks Will Return to Reveal Whereabouts of John H. Quick

MAY BE IDENTIFIED BY LETTER GIVEN HIM BEFORE LEAVING

Wife Knows of No Possible Reason for His Departure

MRS. John H. Quick, wife of the missing Viroqua merchant, was in the city Thursday for an interview with Chief of Police John B. Webber, regarding what could be done further in the attempt to locate her husband who has been missing for nearly two weeks.

Information given by Mrs. Quick that a considerable portion of the money carried by her husband was in the form of checks, led police officials to believe that sooner or later the endorsement on the returned checks would reveal the whereabouts of the man. The checks, it was said were issued by customers in payment for groceries bought at the Quick store.

A variation in the amount of money carried by Mr. Quick was revealed Thursday when Mrs. Quick told Chief Webber that he was thought to have had around $200. It was first announced that he had over $300.

Asked if he had any papers or letters on his person by which he could be identified if picked up in any of the surrounding cities, Mrs. Quick said that just previous to his leaving she had given him a letter to a Minneapolis newspaper in which application was made for a renewal of the subscription. What other papers he might have carried she did not know.

Mrs. Quick said in the interview that she knew of no possible reason for his sudden leaving stating that there had been no domestic troubles. She was advised by Chief Webber to return home and wait for the checks to return, from which information regarding his whereabouts could be learned.

LOBBY ACTIVITIES OF STATE OFFICERS SCORED BY BLAINE

Three Officials Called on the Carpet by Governor Thursday

MADISON, Wis.—By the Associated Press. — Three state officials were called to the executive office Thursday by Governor Blaine and censured for their activities in lobbying among legislators in support of certain measures under consideration.

The three affected are William Kittle, secretary of the board of Normal regents, Major E. A. Fitzpatrick, secretary of the state board of education, and George P. Hambrecht, director of vocational education.

These three state officials are understood to have been particularly active in approaching legislators with reference to educational bills before the session. Their efforts to impress legislators with particular points of view on the bills in which they are interested came to the attention of the governor who called them to his office.

State officials are permitted to appear before the committees in support or opposition to intended legislation but are not expected to approach individual legislators in an effort to influence them, it was explained to the three officers called by the governor.

NORTH AND SOUTH SIDES CEMENTED AT FESTAL EVENT

Annual Banquet of the Local Progressive League is Biggest in History

FOUR HUNDRED AND FIFTY ENJOY A SPLENDID PROGRAM

Hundreds there as Guests of Enterprising Organization

Approximately 450 persons attended the banquet given by the La Crosse Progressive league Thursday night at the Logan Junior High school. This was the twelfth annual banquet of the Progressive league and it was pronounced one of the greatest and most interesting get-together affairs ever held in the city of La Crosse. The Kiwanis, Lions and Rotary clubs, along with many others who are not members of these organizations, were in attendance, and all entered into the spirit of community co-operation which those sponsoring the banquet set forth as their principle aim.

The program for the evening was elaborate, consisting of addresses by some of the leading speakers of this city and stunts and rivalries pulled off by the business men's clubs. Professor Harry Spence was a very efficient and entertaining toastmaster. He declared that he was furnished with an excellent program of speakers, and he took great pleasure in cracking jokes on them in his introductions. In the course of the program, Mr. Spence presented Mr. Otto Schlabach with a small crib. In speaking of the division between the industrial north and south sides, Mr. Spence waived his rights as a north side citizen by repeating the famous statement made some years ago by Father Murphy of this city who said that whenever a north-sider manages to acquire $500, he moves to the south side.

Decorations Pretty

The banquet was held in the Logan High school gymnasium which was gorgeously decorated for the occasion. The gym was beautifully decorated in a red, white and blue color scheme, in honor of the father of our country, and an abundance of green, perhaps in token of the freshness of the school and the freshmen who are educated within its walls. Red, white and blue streamers ran from the center of the ceiling to the balcony, large green ferns decked the sides of the gym and a huge American flag backed the speakers on the stage, which was also covered with flowers and ferns. Shields with the pictures of George Washington and others with the emblem of the Progressive league flanked the speakers.

The banquet itself was splendid and the service was excellent. Those responsible for the success of the banquet are John Mulder, T. Tully, Jens Tollefson, J. G. Dubraka and H. G. Harden.

The Kiwanis club appeared in paper caps of varied colors. Their songs and little stunts which added to the spirit of the meeting were greatly appreciated. The music furnished by the La Crosse City band, can only be appreciated by those who actually heard it. The music of Hodges' orchestra was also very good.

Verchota Speaks

After the nourishment and merriment, in seriousness the toastmaster started out with a number of good jokes and then introduced Alderman J. J. Verchota, representative of the Trades and Labor Council, who spoke on "Our City."

Mr. Verchota told of the development of the city in recent years—of our schools, water system, sewer system, roads and streets, and the necessity and plans of making them still better in the very near future. To accomplish these much desired improvements the co-operation of the entire city is necessary and for that reason there should be no dividing line between the north and south sides of our city. Mr. Verchota concluded by saying that if the La Crosse river was regarded as a Mason and Dixon line it would even be possible to change its course and use it as a means of sewage disposal.

Defends Militia

The next speaker spoke on "Our State." This subject was taken by Stanley Gordon who represented the Lion's club on the platform. Mr. Gordon opened with the statement that he would not talk about "our county" as he considered our city the greatest and most important part of this county. Having such a big field from which to choose a particular topic, Mr. Gordon chose the subject of "National Guard," a question concerning the maintaining of which is before the state legislature at the present time and will be decided in the near future. Mr. Gordon spoke strongly in favor of the national guard as it provides an adequate defense for our country both from external and internal trouble. Before 1920 the United States never had an adequate defense and now that it has become necessary to build up a national defense, Mr. Gordon argues that it be sustained in the form of the National Guard organization with a membership of 550,000 able-bodied men, ready on

BOTH FACTIONS AGREE TO TRUCE UPON MEASURE

End of Filibuster Against Harding Bill in Sight With Plans for Temporary Armistice

VOTE TO SEND BILL BACK TO COMMITTEE EXPECTED SATURDAY

Consent of Administration to Agreement Taken as Sign of Yielding

WASHINGTON.—An end of the senate shipping bill fight appeared near at hand Friday through an agreement made behind closed doors for a temporary armistice in the filibuster which has blocked all business since Monday.

In executive session the senate agreed to adjourn at six o'clock, take up minor bills for two hours Saturday and then proceed with the shipping bill, but with the possibility of a vote in the meantime on a motion for recommittal. After the agreement administration leaders conceded that the shipping bill was "as good as dead." Not later than Saturday night, it was said, the vote on recommittal would come, and the bill would be "interred with proper obsequies."

The plans for a break in the filibuster and abandonment of a night session Friday were made after a conference at the white house between President Harding and Senator Curtis of Kansas, assistant republican leader. The senate, under its agreement Thursday night went into executive session to consider confirmation of nominations on reconvening at 11 o'clock and an understanding for the break-up of the filibuster, at least until late Saturday, was quickly reached.

Willingness of administration leaders to call off a night session and spend two hours Saturday on minor bills was regarded by ship bill opponents as a sign of dissolution.

House Filibuster Ends

Although republican leaders had ended the filibuster started in the house Wednesday by announcing they would not press at this time the bill proposing government purchase of the Cape Cod canal, the legislative jam in that body had been intensified Friday by the time consumed in the filibuster. The program was further complicated by the prospect of delay in securing action on the alien property bill, the unfinished business before the house today. A number of representatives were prepared to offer amendments authorizing the return of all property seized during the war from enemy aliens instead of only the smaller trusts as now proposed in the measure.

KANAS CITY FIRE TODAY TAKES TOLL OF THIRTEEN LIVES

Five Others Reported Missing in Rooming-house Blaze

KANSAS CITY, Kan.—By The Associated Press—Thirteen persons were burned to death and three others were reported missing in a fire here early Friday which destroyed a two story frame rooming house.

The dead and unaccounted for are: Mrs. Elisha Colston, 27, and children, Violet, 5, John Vernon, 2; Leo Brown, 32, wife Bessie, 29, and children, Catherine, 8, Arthur, 6, Margaret, 4, and Leo, Jr., 2; Alonzo Bardwell, 22, wife Lillian, 20, and infant child; Edgar Munyon, 17, and grandmother, Mrs. Munyon, 60; Mrs. Anna Sargent, 43, and grandson, Donald, 5.

Thirteen bodies had been recovered this morning. Six of these were adults and seven were children. The only bodies identified were those of Mrs. Colston and two children. Between thirty and forty persons occupied rooms on the second floor of the building. Several escaped by jumping from windows. Elisha Colston, a transfer man, escaped with his five-year-old daughter, Helen. He was unable to bring out the rest of his family.

The Rev. and Mrs. O. K. Hobson, who live across the street from the ruined building, worked tirelessly throughout the early morning hours to aid the survivors.

The crackling of burning wood did not warn those sleeping in the building of the impending danger, survivors declared Friday. They said that it seemed as though the entire structure was enveloped in flames without notice.

GERMAN CIVILIAN KILLED BY FRENCH SOLDIERS AT BOCHUM CITY PLACED UNDER WAR LAW

TWO CHILDREN IN FAMILY DIE WITHIN A DAY

Mr. and Mrs. E. B. Bissen 414 Rose street, lost two children by death within 18 hours.

Thursday noon, Peter George, their little two-year-old son died at a local hospital. Friday morning at 6 o'clock their daughter, Lucile Catherine, died. Both deaths were caused by a complication of measles and pneumonia. Surviving are the parents and one sister.

Saturday afternoon a double funeral will be held, and at 1:30 two little caskets will be conveyed from the home to St. James church, where services will be conducted at 2 o'clock by Rev. Ambrose Murphy. Interment will be made in the Catholic cemetery.

REPORTED CAPTURE OF DE VALERA IS DENIED IN DUBLIN

Commander of Brigade Irregulars Among Five Arrested by Free State Officials

TWENTY MORE ARE ROUNDED UP IN RAIDS IN DUBLIN

Adjutant and Three Officers Taken With Fitzpatrick

DUBLIN.—By The Associated Press. —Five Irish irregulars, the most important of whom was Sean Fitzpatrick, have been captured by criminal investigation department officers of the Free State government in a raid at Drumcondra, it was stated by army headquarters Friday. Fitzpatrick is said to be commandant of the Dublin brigade of irregulars.

It is unofficially stated that the four other men also were irregular officers.

It is understood a meeting of the first Dublin battalion of irregulars was proceeding at the time of the arrest.

A rumor was in circulation that Eamon De Valera had been arrested in the raid, but there was no confirmation.

Deny Capture of De Valera

BELFAST.—T Dublin dispatch describing the capture of Sean Fitzpatrick says the men taken with him were his adjutant and three officers.

The criminal investigating department men, the account states, suddenly appeared at the door of the room in a house on Royse road where the five men were seated at a table which was strewn with papers. The official raiders presented revolvers and shouted: "Hands up!"

The five men immediately surrendered.

The Free State authorities, adds the message, deny reports that Eamon De Valera was captured.

20 Taken in Dublin

By The Associated Press.—More than twenty Irish irregulars were captured in raids in Dublin Thursday evening and Friday morning, it was stated. Additional raids are in progress.

BONE DRY BILL UP IN MICHIGAN LEGISLATURE

LANSING, Mich.—A bill designed to strengthen the prohibition law and regarded as the dryest sort of a dry bill was introduced in the Michigan house of representatives Friday. It eliminates property rights in liquor and prohibits in every term possible, the possession, manufacture or holding of any liquor, except for medicinal, mechanical, chemical, scientific or sacramental purposes.

WASHBURN SCHOOL BURNS

WASHBURN, Wis.—Loss of more than $2,000 was caused when fire damaged the Garfield school here. The flames originated from the furnace. An overheated stove used by John Love to warm a chicken house set the building afire, and it was destroyed together with 200 valuable chickens and an auto, at a loss of $1,500.

SIGNS OF SPRING

The butterflies are here.

One of the big-winged variety was brought to the Tribune office Friday noon by John Rutz, 1328 Jackson, street. Rutz said he found the "bird" cutting all kinds of capers in the sun-light on his back porch Friday.

RAILROADS TO BE OPERATED THROUGH ALLIED CIVIL BODY

Occupation Forces Take Action to Improve Transportation

ESSEN.— By the Associated Press. — The French have decided to replace the German customs officials by French throughout the Ruhr.

BERLIN.—Martial law has been declared in Bochum, says a dispatch to the Central News, in consequence of Thursday's disturbances in which French soldiers fired on a crowd with fatal results.

One German Killed

DUESSELDORF.—By The Associated Press.—Blood has again been shed in the Ruhr in the course of a French "digging in" process. One German civilian was killed and two others seriously wounded at Bochum Thursday when two French soldiers fired upon a crowd that had gathered to watch the occupation of the law courts building. Observers said that the shooting was done by police who were obviously irritated by the jeers of the bystanders.

Roads Under Civil Rule

The decision of Premiers Poincare and Theunis to operate the railroads through an allied civil administration is seen here as a move to improve transportation conditions, although General Farot asserts that the railroads already operating under French and Belgian supervision are doing their work.

Details of the new plan will be worked out at conferences among General Degoutte, General Farot, officials of the French ministry of public works, representatives of the railroads, and Paul Tirard, president of the International Rhineland commission.

SAILOR WHO KNOCKED DOWN BRITISH KING DEAD AT PORTLAND

PORTLAND, Ore.—Richard G. Deverill, 87, dead at his home at Linnton, a suburb, used to tell of how once he knocked down King George of England. Deverill was then a seaman in the British navy and the king was a stripling prince. According to the aged man's account of the incident, he hit the youthful scion of royalty when the latter made a slighting remark about something close to Deverill's heart during a cruise in which the prince was participating.

"And he was a better man for it," the sailor concluded.

METHODISTS ASK RELEASE OF POLITICAL PRISONERS

CLEVELAND, Ohio.—Delegates to the sixth annual meeting of the council of cities of the Methodist Episcopal church were leaving for their homes Friday after the adoption Thursday of a resolution requesting amnesty for offenders of war-time laws who are still in federal prisons.

The adoption of resolutions of political character is unusual at the conventions of the council of cities, James M. Versteeg, Jersey City, secretary of the convention, said.

SETTLE SEPARATION SUIT

NEW YORK. — The separation suit of Mrs. Eleanor V. Brewster against her husband, Eugene V. Brewster, publisher of motion picture magazines, brought because of his attentions to Miss Corliss Palmer, motion picture actress, has been settled.

Mrs. Brewster's attorneys announced Friday that a $50,000 home at Roslyn, Long Island, with furnishings valued at $40,000, and alimony had been given to their client. The amount of alimony agreed upon was not disclosed.

REDEEM ARMOUR NOTES

CHICAGO, Ill.—Armour & Company (of Illinois) Friday announced that it would redeem at par and accrued interest on June 15 next, all of its six per cent serial gold debentures, dated June 25, 1918, and in addition on April 26 next would redeem at par and accrued interest and at a premium of five per cent on the principal, its ten-year seven per cent convertible gold notes dated July 25, 1920.

ROUGH SAILING AHEAD FOR TAX REVISION LEGISLATION INDICATIONS FROM SENATE

MADISON, Wis.—By The Associated Press.—The tax problem before the legislature is far from settled despite the favorable report of the assembly tax committee on the Dahl general income tax bill, and the decided probability that this proposal will be passed by the lower house with a large majority. Rumblings in the senate indicate rough sailing ahead for any revenue proposal making alterations in the existing tax laws.

Senators Bilgrien, Staudenmayer and Ridgeway, together with the socialist vote, are the uncertain quantities to be dealt with by proponents of both the Severson and Dahl income tax bills. They hold the balance of power in the revenue fight that has brought a close division of forces in the upper house.

Dahl Bill Vote Tuesday

The Dahl general income tax bill, estimated to raise nearly $16,000,000 annually from incomes, will be favorably reported to the assembly on Tuesday and will automatically go on the calendar for engrossment on Tuesday. Unless laid over, either by agreement or by offer of a substitute amendment, a vote will be taken at that time.

After that both the Dahl and the Severson bills will be before the joint finance committee. Recommendation will then be made by this committee to the legislature and the fight will be on in the upper house.

Senator Herman Bilgrien, Iron Ridge, announced again Friday that he would have a substitute amendment ready for introduction when either of these bills comes before his house. He let his opposition to both be known.

Senators Staudenmayer and Ridgway are understood to be opposed to the Dahl bill because of the inclusion of the personal property offset repeal. The socialists have announced their opposition to the Severson bill because it does not include the personal property offset repeal. They also feel that it is not broad enough in its scope.

Severson Confident

Senator Severson announced that he was confident of 14 votes for his bill in the senate, with three other votes doubtful. He will need 17 members for a majority to pass his measure. The Dahl bill likewise has 14 votes assured in the upper house, with three more needed to guarantee a majority.

This leaves Senators Bilgrien, Staudenmayer and Ridgway, together with the socialists, to decide the fate of the proposed measures.

Judge Rosa, member of the tax commission, who is actively backing the Dahl general income tax bill, is of the opinion that certain of the opposition senators will vote for the proposal because of its beneficent effect on their section of the state.

Socialist senators while agreed to support the Dahl bill, would not be averse to an amendment which would give the cities of the state a larger share of the returns from the proposed tax.

Pressure will be brought to bear on the doubtful senators to line them up in support of one of the measures proposing a readjustment of the tax burden. There seems to be little doubt but that some tax measure will be able to get through the session. Until the issue is drawn on the floor and a vote taken the outcome of any move will remain in doubt because of the close division.

CIVIL RULE FOR RUHR

PARIS.—A decision to replace the German railroad administration in the Ruhr with an allied civil administration was announced as one result of the conference between Premier Theunis of Belgium and Premier Poincare.

Meddling

PERHAPS it is a prerogative of a state legislature to make itself ridiculous if it so desires, but there should be no reason why a progressive legislature should be less careful of its reputation for common sense than a conservative legislature.

It is an entirely wholesome idea that the Wisconsin legislature should interest itself in the doings of the state university. The finances of the institution, and the character of the machinery by which it is governed, are subjects that may properly be considered by assemblymen and senators. General university policy as affecting the common welfare is a fitting subject for legislative scrutiny.

But when the legislature begins to examine such details as the number of students who are "flunked" and why they are "flunked" it engages in a sort of meddling that is silly. Probably there is not in the legislature of Wisconsin an individual qualified to read and grade a single sophomore examination paper turned in at the conclusion of the last semester. This doubtless is true quite irrespective of the fact that undoubtedly there are members who have made these grades themselves. For the graduate of the university who has gone into a business or a profession, and has lost his familiarity with his textbooks, seldom long remains qualified to pass one of his old examinations.

It would be strange indeed if occasionally some student were not unjustly dropped from the university. Probably such cases can be cited. Of course this would prove nothing more than ever can be proved by the absurdity of reasoning from the specific to the general. The substantial thing about it is that standards of excellence must be maintained in the university, and that any surrender of these standards would be to waste the money of the taxpayers, the time of the student and the cash which parents spend in putting their children through school.

Ideas like that expressed by the Blomberg resolution, calling for a legislative inquiry into these subjects, must have back of them some motive. In this case the only possible motive must be to demand that students be permitted to go on with their work even though they fail in their examinations. To bring this about would be as unjust to the parents of failed students as to other taxpayers. To permit a father to go on meeting the expense of sending his boy through college when that boy was not taking advantage of the opportunities for which the parent paid would be most unfair to the father.

A legislative investigation would make a pretty row. Does anyone suppose that ever a student was "flunked" who didn't immediately tell dad he had been discriminated against by the faculty? He may have been spending his time as though he had matriculated in a pool room or in a college of dancing, but that would not matter. And there is something about parents which inclines them to take the part of their wayward offspring even though in their own hearts they know he has been defiant.

There is a great deal of substantial work to be done by this legislature. Governor Blaine hopes the work will be done with such celerity that a new record for a short session may be made. It is to the interest of the state that these things should be attended to. The legislature has no more time than it has qualifications for running the routine affairs of congress, Russia or the state university. The best it can do is to acquit itself with credit in handling the business for which it was elected by the taxpayers of Wisconsin.

A Lenten Editorial

The Test of the Commonplace

(By REV. NELLIE MANN OPDALE, St. Paul's Universalist Church.)

CAN you stand by and see things through, or do you weaken at the first difficulty? Jesus was a master in loyalty and patient persistence, because He knew without doubt that God was with him, directing and leading; it was his to follow. Life is not all spectacular. It is not all lived on the mountain top, the fields are in the valley; but it is the mountain-top experiences that make us to see the breadth and reach and significance of the valley, wherein much of our work must lie. Jesus was faithful to His work in the valley.

Rev. Mrs. Opdale

After that wonderful spiritual experience at His first Passover in Jerusalem, "He went down with His parents, and came to Nazareth, and was subject unto them." After the wilderness experience "He came to Nazareth, where He had been brought up; and He entered, as His custom was, into the synagogue on the Sabbath day." After the Transfiguration, "He cured the epileptic boy." After the triumphal entrance into Jerusalem, "He was teaching daily in the temple." All of which means, that no matter how glorious or transcendant had been Jesus' experience, He returned to the homely, everyday task, to perform it. But friends, He did it in the light and with the strength of the larger experience. That is his teaching.

But herein is where we fail. The world is cluttered up with projects enthusiastically begun, but never finished. Everyone despises a quitter—and wisely so, because it signifies a weakness of character that is undesirable. Anyone can run with the crowd, especially when led by the band wagon; but only those who have an inward force and vim, all their own, will keep on when all others fall out.

We are all called to be disciples of Jesus Christ—to join the company of Andrew and James and Martha and Mary. We soon discover that this companionship means, not getting, but giving—just doing the plain every-day task perhaps, that we have done so many times before. Then I wonder how is it—are we found with that company, who "walked with Him, no more," or are we "faithful unto the end?" Suppose during these days, we find out: for the sake of our own souls, it will be worth while.

In Ye Olden Times

TEN YEARS AGO TODAY

William Johnson, a stenographer employed in the offices of the John Gund Brewing company, today received the offer of the La Crosse agency for the Reading Special, a motorcycle manufactured at Reading, Pa. It is probable that Mr. Johnson will accept the proposition.

Five hundred soldiers from Fort Snelling passed through the city last evening via the Milwaukee road enroute to the Mexican border to participate in the maneuvers or the intervention which may be ordered.

Mrs. Levi Withee, Mrs. Hyslop and Mr. Abner Withee who went to Panama in January are now on their return voyage.

The following taken from the Portland Journal will be of interest here as the parties formerly lived in La Crosse: "Mrs. F. S. Davidson and Mrs. H. Goddard of La Crosse, Wis., leave Saturday evening for San Francisco where they will take the steamer Sierra for Honolulu to spend six months."

TWENTY YEARS AGO TODAY

Norton Phillips of Rockland, is in the city buying supplies for a barber shop which he will soon start at that place.

A number of young people of North La Crosse have organized what is to be known as the Twentieth Century Midnight Dancing club. The dances will be held in Fjelstad's hall and will adjourn at midnight, hence the name.

Messrs. Ole Storey and James Follmar, the latter former deputy sheriff, left last evening for Oregon. Mr. Follmar expects to interest himself in the lumber business there with Mr. Storey.

If the present plans of the architects are carried through the new county court house will be fitted with steel furniture and fixtures so as to be absolutely fireproof. The new kind of furniture will be more expensive than wooden furniture but it will be fireproof and absolutely unbreakable.

Every ward and every private apartment in every hospital in the city is full at the present time. There is a general epidemic of spring illness and it is reaching startling proportions. There are 108 patients at St. Francis hospital at the present time. The new La Crosse and Lutheran hospitals are as crowded as St. Francis.

THIRTY YEARS AGO TODAY

Mr. George M. Cowles and Miss Emma E. Holmes of Faribault, Minn., were married by Rev. Henry Faville at the Congregational parsonage yesterday afternoon.

Andrew Ashla of West Salem will open a meat market in Onalaska soon.

Wesley Whitbeck will leave his farm in Sand Lake Coulee soon to make his home in Onalaska.

A movement is on foot to establish a W. C. T. U. coffee house in this city. About $800 will be required to start it but after that, it will be self supporting. Friendless girls and children will be sheltered and given a home. It will be run on the order of the coffee house in Minneapolis.

John McDonough has bought the butcher shop of John Gautsch on Indian Hill.

Oliver N. Olson, son in law of E. Stevens of Mindoro, left yesterday for Bath, S. D., to take charge of the Salzer Lumber company's general store and lumber yard.

Members of the Ski club are starting a campaign to raise funds for a new ski hill. They wish to get nearer the city and will probably select a site near the jail.

Yesterday's records at the office of the register of deeds showed that the La Crosse City Railway company has purchased the following property: Parts of two lots on North Third street from Alexander McMillan for $850, a lot from Nathan Myrick at Third and La Crosse streets for $1,500 and a lot on the same corner from John McMillan for $3,500.

Her Dividends

By CLARISSA MACKIE

Helen Wright dropped the check and looked dreamily into the fire. "I wonder who Paul Day can be—it must be—it is seven years since father died and left me alone, once every year I receive this check signed by Paul Day and no clew to follow save the scrap of attached paper, which always bears the same message, 'Dividend on investment in Day-Wright mine!'" She smiled as she retrieved the envelope from the waste-paper basket and studied the postmark.

"Big River, Cal.," she deciphered, and went for an atlas, which she studied closely. "I will go and find it," she told herself that night as she prepared for bed.

Paul Day, big, bronzed and handsome, emerged from the shaft of his mine and discovered a young woman seated on the end of an empty ore car. She wore linen riding clothes and twirled a stiff black sailor hat on one hand.

"A tourist," and Day groaned inwardly, but his eyes were satisfied with the vision of her sitting there, cool and lovely, with the afternoon sun shining on her fair head.

He removed his hat and paused an instant.

"It may sound inhospitable," he said with a pleasant smile, "but I am wondering if you are expecting to meet any one here?"

"Why?" she asked curiously.

"Because the mine is not being worked, and there is no one here except myself. People have been here from time to time, looking for some of the men who used to work for me, but the men have all gone." His eyes turned away and he gazed off into the remote distance; he might have been searching for something unattainable, for his eyes were sad just then.

"This is the old Day-Wright mine, isn't it?" the girl asked, stepping down from the car before he could reply, and coming closer.

"Yes," there was surprise in his tone. "Are you down there?" she wanted to know. "Please tell me all about it."

"My name is Day—my partner, Wright, died a few years ago. You see, he and I worked it together for so long and it looked like a good thing, then his health failed and he went out to the east. I understood that he had a motherless little girl, who lived with a grandmother—he was a nice fellow, who loved the open country, a fair-square man. I missed him, some one sent me word of his death."

"Didn't his heirs claim a share in the mine?" she asked.

She liked his deep laugh that followed her question.

"The lead was a false one, the gold pocket out shortly after his departure. We had never drawn up any legal papers, so, you remain here and work it."

He shrugged. "I have been able to scrape out a little ore, enough to make a living for myself, while I am working for Giant Mines. I am a mining engineer."

"Thank you for telling me so much," she said. "May I ask one question? I may sound impertinent, but—"

"Ask any question," he replied.

"Does the Wright-Day mine—"

"Day-Wright," he corrected.

"Does the Day-Wright mine pay dividends?"

Day blushed like a schoolboy. "Why—why do you ask that question?"

"I wanted to know," she laughed frankly and there was a very soft light in her brown eyes.

"It pays dividends—sometimes," he admitted.

"Annual dividends?"

"Yes," a little sharply.

"Does the little girl of your partner—does she receive a dividend, too?"

"Eye—"

"All of it?"

"Yes," stiffly.

"Why, all of it! Forgive me, Mr. Day, but I must know. Is she needy?"

"I am not sure, but I suppose so. Wright gave me to understand that he had nothing of his own, and that his mother cared for the little girl. I assumed that he had nothing to leave her. He was a good friend of mine and the dividends will go on as long as I am alive, or as long as she needs them," he added grimly.

At the risk of offending him beyond pardon she asked one more question. "And when you cannot scrape another bit of gold from the mine, I suppose you will keep on working for the Giant company, and continue to send the child her dividends?"

To this he made no reply, but stood staring off across the ravine to where the sun was sinking in a flame of glory.

"It is getting late," he said after a while, but she had disappeared, and peering down the trail that wound through the ravine, he saw her mounted on a white pony making for the settlement at Big River.

A week later he received a telegram calling him to New York to confer with the vice president of the Giant Mines. So he locked the doors that led to the shaft of the abandoned mine, shut up his little cabin nearby, and caught the first train for the east.

An office boy led him to a private room where the door bore the vice president's name, H. E. Wright. The name was a common one, and when he entered he did not connect it with the man who had been his partner. A girl rose to meet him—the girl who had sat and talked to him that day at the mine, and whose face still haunted him. His heart leaped at sight of her.

"I am the vice president of the Giant Mines," she told him when they were seated. "My father was your old friend—and I am the little girl you have been sending dividends to all these years—I am Helen Wright, Mr. Day."

He shook hands with her dazedly. "I have never needed the dividends you sent, my friend; but I have hoarded the money and you must take it back. I am rich, and I am so happy to meet father's friend; and to have you for my friend," her eyes were full of tears as their hands clasped.

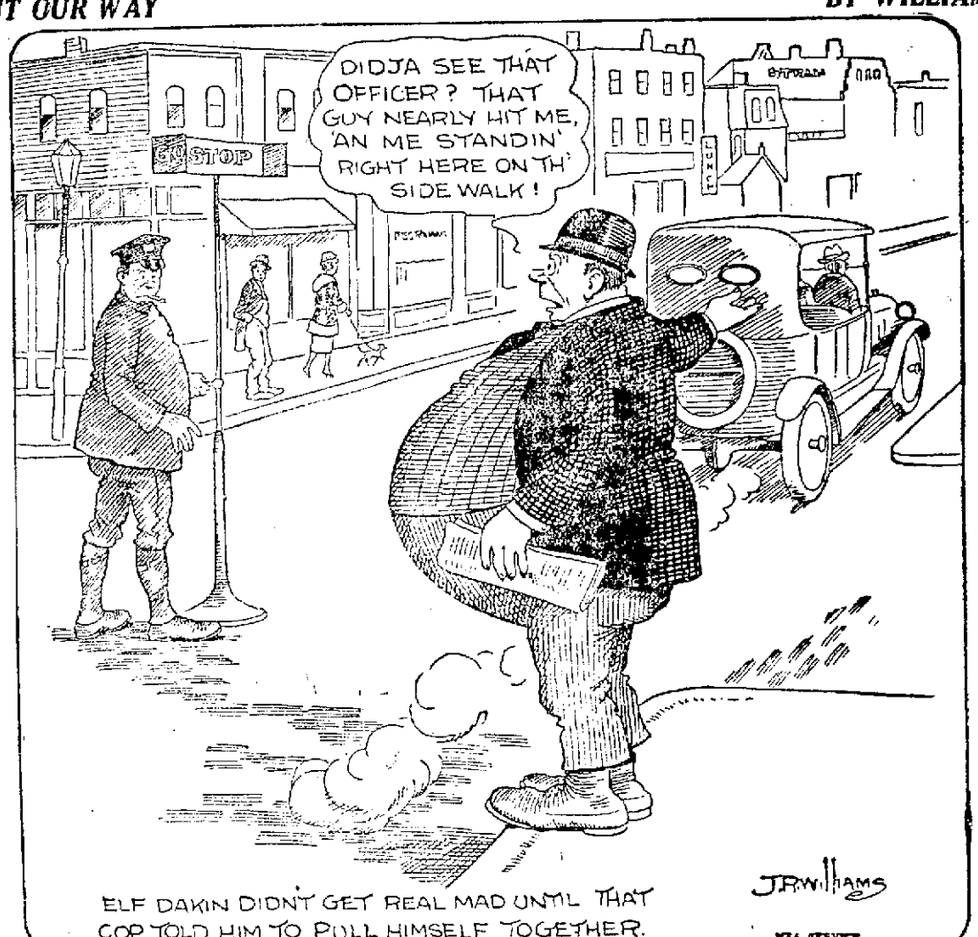

Of course, they loved each other. The old mine reopened—hidden store. Paul Day became president of the Giant Mines, Inc., and they both collected dividends of happiness from their ideal love for each other.

Be Careful What You Wash Your Child's Hair With

If you want to keep your child's hair in good condition, be careful what you wash it with.

Many soaps and prepared shampoos contain too much free alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulsified cocoanut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply put two or three teaspoonfuls of Mulsified in a cup or glass with a little warm water, then moisten the hair with water and rub the Mulsified in. It will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store. It is very cheap, and a few ounces will last everyone in the family for months. Be sure your druggist gives you Mulsified.

WARNS AGAINST CONTINUED DRY LAW VIOLATION

Judge Declares Practice Eventually Means Overthrow of Government

MILWAUKEE, Wis. — Warning that continued evasion of the law, particularly the prohibition amendment, by influential men in every community eventually means overthrow of the United States government, was sounded Thursday by Judge G. T. Page, Chicago, of the United States circuit court of appeals, who delivered the principal address at the annual Washington birthday dinner of the Milwaukee County Bar association.

"There has long been practiced in this country," he said, "a thing that must ultimately, if permitted to continue, subvert and overturn the government, and that is disobedience to and evasion of the law by men of prominence and influence in every community, and whose sole excuse and defense is, when forced to make public confession of it, that the law in question is an infringement upon their liberties and ought not to be enforced."

Naming the eighteenth amendment as an example, Judge Page remarked: "Our liberties cannot be regained nor our freedom protected if there is disobedience to law. A constitutional government, whose laws are not obeyed by its people, cannot survive."

NEW SENATOR FROM SUPERIOR TO TAKE HIS SEAT TUESDAY

MADISON, Wis.—M. A. Kemp, senator-elect from the eleventh Wisconsin district, is in Madison prepared to take his seat on next Tuesday when the upper house reconvenes. He will be an addition to the group of senators favorable to the La Follette-Blaine faction.

Senator Kemp holds a strategic position in the upper house of the legislature both on progressive issues and on the wet and dry factional division. His vote may turn the tide on matters of importance.

The Superior legislator declares that he is prepared to side with neither the wets nor the drys. He is not inclined to favor the rigid enforcement of prohibition, unless his constituents want it, and explained that apparently both wets and drys had combined to elect him so that his position was in doubt.

"With what measure you mete it shall be measured unto you; and more shall be given unto you." Mark 4:24.

Read Mark 4:21-32.

"Light does not exist for itself, but for the eyes of those who sit in darkness."

Meditation: God's gift of love to his children is their most precious possession, and the more we use the more we have. The law of Divine economy is that to keep this love, we must use it, and if we do not use it, we shall lose it.

Hymn:

Work is sweet, for God has blest
Honest work with quiet rest,
Rest below and rest above
In the mansions of his love,
When the work of life is done,
When the battle's fought and won.

Prayer: O Lord, my Heavenly Father, grant me grace to live this day as one of thy children. Keep me from all sin, in thought or word or deed, and enable me to act like a Christian always and everywhere. If I am tried or vexed, make me patient, and if thou dost send sorrow, let me be submissive to thy holy will. Make it my chief joy to do something for thy cause in the earth. And if by reason of human infirmity I should forget thee, do not thou forget me, but pardon my sins, and accept me in the name of the blessed Savior, to whom with thee and the Holy Ghost be glory forever. Amen.

LIFT SCARLET FEVER BAN AT STATE REFORM SCHOOL

GREEN BAY, Wis.—The Wisconsin State Reformatory scarlet fever ban, which has caused the institution to be closed to the public for the past two months, was lifted Thursday night, according to Superintendent Oscar Lee, the last case of scarlet fever being practically disposed of and no danger being prevalent.

As a result of the reopening of the institution, approximately 50 men and boys throughout the state, who have been held in their respective localities to await the lifting of the ban, will be brought to Green Bay immediately, Mr. Lee declared.

WOMAN WRITER HAS RARE EXPERIENCE ON VISIT TO CANTON

Mrs. Ernest Thompson Seton Was Only White Woman in City During Bombardment

SEATTLE, Wash.—Eating breakfast while bullets crashed through the house she occupied was the experience of Mrs. Ernest Thompson Seton, wife of the naturalist, during the occupation of Canton by troops of Sun Yat Sen, deposed president of South China. Mrs. Seton arrived here Thursday on the steamship President McKinley from a visit to the Orient.

"I was the only white woman in Canton proper when Sun Yat Sen's troops entered the city and I ate my breakfast amid the rattle of machine guns which kept up until the city was entirely under command of the victorious troops," Mrs. Seton said.

"I was among those protected by the British government on a small island, but the desire to see actual fighting and to get material for a book I am writing prompted me to leave under cover of darkness and get into the midst of the fray. Here I narrowly escaped being killed, a bullet crashing through the house above my head.

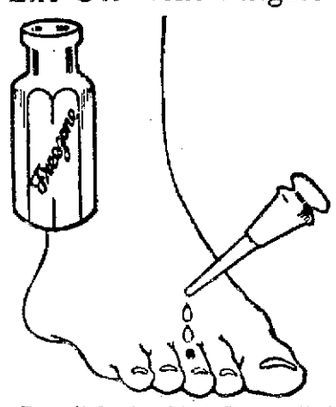

"The conquering troops were sheltered in schools, churches, and other buildings, and I saw as many as forty proclamations issued in one day. The residents remained behind locked doors, fearing their homes would be looted, but after the city had been taken the proclamations requested them to come out and promised no harm would result."

DENY MILL PURCHASE

WAUSAU, Wis.—Fowler P. Stone, president of the Wausau Sulphate Fibre company, emphatically denied that his company has purchased the plant of the Bride Pulp & Paper company of Tomahawk. However, a company is being formed, principally with Wausau capital, to purchase the property and it is expected the deal will be completed within two weeks.

Diamond Dyes

Buy "Diamond Dyes"—no other kind—and follow the simple directions in every package. Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

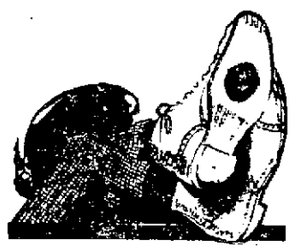

MOTHER! GIVE CALIFORNIA FIG SYRUP

Child's Best Laxative To Clean the System

Hurry Mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well, playful child again. Even if cross, feverish, bilious, constipated or full of cold, children love its "fruity" taste, and mothers can rest easy because it never fails to work all the souring food and nasty bile right out of the stomach and bowels without griping or upsetting the child.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother, you must say "California." Refuse any imitation.

HOUSE DRESSES ATTRACTIVE IN BRIGHT COLORS

"The busy farm woman can look Home Makers' convention at Madison just as well groomed and attractive as their city sisters if they will but follow a few simple precautions," advised Mrs. Genevieve P. Reid of Chicago to the women attending the Home Makers' convention at Madison recently.

"Have neat, trim house dresses—preferably the apron style—and never wear out discarded best dresses of fancy make and material in the kitchen. Wearing an old kimono when doing housework is equally bad. Gingham and percale are practical for house dresses, but they need not be always a gloomy dark blue.

"Good grooming which implies care of the skin by using a soothing face cream; an occasional professional shampoo; and frequent baths; are the foundation of good dressing. Proper underclothing is highly important; and a radical change has come about in this respect during the past few years. Long flannels, and many heavy skirts were then considered necessary but now the average woman finds that she can get along with much less and be even more comfortable. The best rule to follow is to wear the least amount of underclothing necessary to meet the demands of comfort and health.

"Never before have there been so many conveniences for the home dressmaker and in addition this year the straight, simple styles that are in vogue make home sewing even easier."

Mrs. Reid pointed out that vivid, brilliant colors would predominate this spring. Green, yellow, rose and purple seemed to lead in popularity, she believed.

"I can't say what trimmings will be most in vogue," she said, "because there will be little of it used. Fabrics are so rich and draping is so much in the fashion as well as contrasting colors combined in dresses, that very little trimming is needed. Flowers of silk and satin and bead ornaments are found on evening dresses while for the more tailored effects nail heads, braid and buttons will be used."

A FEW FUR FACTS

1. Buy good furs and then take care of them properly.
2. Use a coat hanger as it prolongs the life of a fur garment.
3. After you have been out in the rain or in wet snow, shake the coat vigorously, hang on a hanger and put it in a place where it will not dry too rapidly. Seal should be brushed with a soft clothes brush and then fluffed out when dry.
4. A thorough whipping with two smooth pliable sticks is best way to clean furs. Whip vigorously for 10 or 15 minutes and then use a furrier's comb made of sharp wire bristles.
5. Hanging furs on a line in the sunshine is merely giving the moths a pleasant out-of-doors vacation. When tufts of fur begin to loosen, then is the time to give the garment a vigorous beating as this kills the moths and removes the eggs. (A few delicate skinned furs such as squirrel cannot stand beating, but the great majority are benefited by it.)
6. After furs are thoroughly beaten and brushed pack them in a box and seal with strips of pasted newspaper or wrap the box in tar paper. Do not store furs in the attic; an ordinary clothes closet is the best place.
7. Occasionally during the summer give the fur a few taps with a stick to see if any tufts of fur loosen, indicating moths. If so, administer a vigorous beating.
8. August is a good time to buy furs as dealers can then legitimately allow a discount because of the slack season.

EGGS

(Benedictine)

BY BERTHA E. SHAPLEIGH
Of Columbia University

On the toasted half of an English muffin place a piece of boiled ham, on top of this a poached egg and over all two tablespoons of Hollandaise sauce.

To make Hollandaise, put in a saucepan the third of a half cup of butter, the yolks of two eggs and a tablespoon of vinegar or lemon juice. Holding the saucepan over hot water but not allowing it to touch, stir the ingredients until they thicken; then add another third of the butter and, as the mixture thickens, add the remainder, stirring constantly. Salt and cayenne to taste.

The sauce should be smooth, glossy and thick enough to hold itself without running.

If you find dinner on both sides of your vest, remove the spots with Blue Devil.—Advertisement.

FEATURING AMBER

Small amber beads are the only trimming used on an elaborately draped gown of amber-colored crepe de chine. The irregular hemline is outlined with beads, and they occur at intervals of about every inch over the entire surface of the frock.

ELABORATE COATS

Coats for dress wear were never more elaborate than they are to be this season. Wrap about models of pale-colored satins are elaborately beaded in self-toned beads and collared and cuffed with ermine.

That's the coffee I want—GONA!

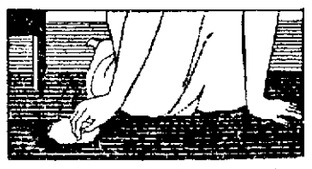

FANCY FOOTWEAR

Brocaded slippers in delicate colors are trimmed with large rosettes or pompons of lace or ribbon. Rhinestone studded heels are shown on plain satin models.

HOUSEHOLD SUGGESTIONS

POLISHING THE FLOOR

Those very dark marks made on a hardwood floor by rockers or furniture casters will disappear if you rub them with very fine steel wool dipped in soapy water.

CLEANING CAKE PANS

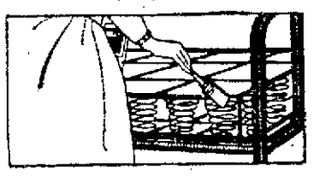

To clean the corners of your square cake pans you will find a small brush, such as you use for vegetables, useful.

HEAT THE KNIFE

When cutting fresh bread, if you will heat the knife first, you will be able to make your way through the loaf with less difficulty.

TO AVOID RUST STAINS

If you will paint your bed springs a white or very light shade you will not be distressed by rust stains on your mattress.

USE BOILING WATER

With most vegetables it is a mistake to start them in cold water, as they lose their flavor. Put them into water that is already boiling.

FOR DRYING LETTUCE

Keep a supply of paper towels in your kitchen. You will find them excellent for drying lettuce.

RIBBON SASHES

Wide sashes of satin ribbon, with ends that reach below the hem of the skirts, are worn on the new black satin and lace frocks. Nearly every gown, if it is dark in tone, is brightened by some vivid touch of color. Jade green, coral and Alice blue are the most popular shades for these sashes.

MEDIUM BROWN HAIR looks best of all after a Golden Glint Shampoo.—Adv.

TRIMMED WITH RUFFLES

Figured georgette crepes in large floral designs are shown this season trimmed with tiny ruffles of silk or velvet, or of black lace.

ARE YOUR CHILDREN BRIGHT?

ASK THE NEIGHBORS.

BOSTON.—There are mentality tests—

And precedent established rules for determining—

But if you really want to know how bright your children are—

Ask the neighbors.

That's the best test says Dr. A. E. Winship, editor of the Journal of Education and an expert on mental ability.

"There is no other simple rule for gauging the mentality of children, and parents never should attempt it," Dr. Winship declares. "They are not in a position to do so. They should leave that to experts."

One of the commonest of parents' errors is mistaking mere imitativeness for brightness, according to Dr. Winship. "Parroting" words isn't an indication of superior intelligence, he says.

"At the entrance to one of the colleges of Oxford University there is this inscription:

"'He who reads and reads and does not what he knows,
"Is he who plows and plows and never sows.'

"Every father and mother should remember this, and strive to have his child learn to learn rather than have him learn to know.

"With the rapidity of modern advancement, the bright child must be able to think, to apply the processes of reasoning. Merely knowing is not enough."

SONS OF NORWAY ENTERTAINED BY THE CITY BAND

Musical Program Features Lodge's Regular Monthly Meeting at K. P. Hall

A concert by the city band featured a social meeting of the Sons of Norway, held at K. P. hall on Wednesday evening. The Daughters of Norway were the guests of the lodge, and an interesting musical program was arranged. Mr. R. N. Qualley, who is connected with the Madison, Wis., Sons of Norway lodge, addressed the meeting, telling of the meaning of the lodge and its work, particularly for the benefit of the new members present.

Norwegian patriotic music and other admirably executed numbers were given by the city band; Normanna Sangerkor gave several selections, among them, "Norway, My Norway," "Ocean," and "Valsdreen," and Miss Theresa Severtson sang "Kan du Glemme Gamle Norge." The Daughters of Norway contributed to the evening's enjoyment by presenting a drill. Mr. Jens Eggum, president of the lodge, presided during the program and at the regular business meeting which preceded it.

INVESTORS LOST HALF MILLION IN MARCINO FINANCIAL DEALS

Missing Financier Son of Chicago Baker

CHICAGO, Ill.—While authorities in various parts of the United States Friday continued checking up the operations of Joseph M. Marcino, alias Joseph Biata, who rose from a barber to a buyer of banks and whose financial deals were reported to have caused losses of approximately $591,000, reports here indicated he might have committed suicide.

That theory found its inception in a letter written by Marcino from some point in Texas or Mexico, to Abraham Goldman, of Chicago, father-in-law, and who, according to investors, supplied the missing man with funds in a greater or lesser amount.

The letter, said to contain a minute account of the fugitive's financial career, since its beginning here in Chicago, was reported to indicate that Marcino might end his life so

GLENWAY MAXON TO GREEN BAY TO SERVE SENTENCE

MILWAUKEE, Wis.—Still maintaining the same stoical attitude he had exhibited throughout the ordeal of his trial and convictions, Glenway Maxon, Jr., consulting engineer and inventor, left for Green Bay reformatory Friday at 7:15 a. m. in company with eleven other Milwaukee county prisoners.

Roused at 6 a. m. to permit of an early breakfast at the county jail, and hasty preparations for departure, the prisoners filed out of the prison before 7 a. m. for the Union depot.

Perhaps the only flicker of expression that crossed Mr. Maxon's face, was when a deputy sheriff snapped the ring of a handcuff about his wrist, and then attached the other end to the arm of a burglar.

very short notice to rise up and defend their country.

Mr. Gordon proved that a country with a strong defense is not molested, as in the case of Switzerland, a country with a strong military force which no other country attempts to meddle with. Within seven days the city of La Crosse could put 750 men in uniform ready for action.

"Without them the protection of La Crosse citizens would be confined to Chief John R. Webber and Sheriff Lund," said Mr. Gordon. "And the Wisconsin state legislature contemplates 'helping out' our national guard, our only means of national defense."

In the rest of his arguments on the subject, Mr. Gordon maintained that

She leaves, besides her parents five brothers, Carol, Eunius and Vernon of Bache, Wis. Stanley and James at home and one sister Marjorie also at home.

The body was taken on the Southeastern this morning and burial took place this afternoon at the Salem Ridge cemetery east of Westby.

GRANT COUNTY LAND VALUE DOUBLED IN TEN YEARS

LANCASTER, Wis.—Land values in Grant county have doubled in the last ten years. The land value per acre in 1912 was $58.25; in 1922 it was $102. During the same period the average value over the state went from $46.75 to $80.50. The increase in school taxes during the ten year period was large, but general tax increases in the county ran lower than in the state as a whole. General taxes appear to double every seven years.

MICHIGAN DEMS MAY BACK FORD FOR PRESIDENT

DETROIT, Mich.—Possibility that Henry Ford might be endorsed as the party's presidential candidate in 1924, overshadowed all other business before Michigan democrats when they met in state convention here Friday to adopt a platform and nominate candidates for minor state offices to be filled at the spring election.

Some of the party leaders frankly expressed the fear the proposed Ford endorsement might cause a split and turn the convention from a jollification over the party's success last November into a divided camp.

GLOBE-TROTTING WIFE AND SPOUSE AT HOME AGREE TO WRITE ONLY CHEERFUL LETTERS; NOW SHE DOESN'T KNOW THAT HE IS DEAD

ASHTABULA, Ohio.—Because of an agreement entered into last October between Dr. H. Milton Brown and his wife, when the latter started on a tour around the world—to write each other only cheerful letters—Mrs. Brown is unaware that her husband is dead and buried. News of the agreement was disclosed by friends.

Dr. Brown was sick for ten days but never broke his promise. "I cannot write because it would ruin her trip," he said.

Several days ago a letter was received addressed to him in which Mrs. Brown implored him to "forget that foolish promise," as she is "sick with anxiety."

But Dr. Brown never saw the letter. He died on January 25, calling for his wife who is somewhere on the Indian ocean. Relatives, knowing of the agreement, decided to write the manager of the tour at his New York office, enclosing a letter with the news to Mrs. Brown, which she will not receive until she arrives in New York, probably a month from now.

BALLET DANCER GETS $25,000 FOR FACIAL DISFIGUREMENT

NEW YORK.—By the Associated Press.—Florence M. Glover, a ballet dancer at the Metropolitan opera house, was awarded $25,000 against a firm of beauty specialists who contracted to reduce the size of her nose to conform with standards set by authorities on pulchritude. After submitting to treatments, the plaintiff charges, her face was covered with lumps.

MILTON COLLEGE WANTS $500,000 FOR EXPANSION

MILTON, Wis.—Two new buildings, a modern athletic field and $250,000 additional endowment are included in the $500,000 expansion program recently inaugurated by alumni and friends of Milton college. It is proposed to build a new library in memory of the late Dr. William C. Daland, and a women's dormitory to supplant Goodrich hall, which has been used for that purpose since civil war days. The following committee has been chosen to direct the campaign: Dr. George W. Post, Jr., Chicago; Prof. A. E. Whitford, acting president of the college; Dr. A. L. Burdick, Milton, and Mrs. Alida H. Morse, Edgerton.

SENDER OF FIRST CABLE ACROSS ATLANTIC IS DEAD

PORT CHESTER, N. Y.—(A. P.)—Capt. Robert H. Smith, 82 years old, who sent the first cablegram across the Atlantic in 1866, for Cyrus W. Field, who laid the cable, died on Wednesday at his home here.

During the Civil war Capt. Smith, as a military telegraph officer, served for a time as personal telegrapher for President Lincoln. He worked as a boy with Thomas A. Edison in Boston.

For many years Capt. Smith was chief operator for the Western Union.

WOMAN, ACCUSED AS THIEF, SWALLOWS $50

DES MOINES—Tucked away in a safe place, Della White, very colored, has $50 which no one will ever get away from her.

Della is in the local boosegow, charged with relieving a friend of $50 in the throes of a party Monday night.

It is further charged that while police matrons were searching Della, she grabbed the fifty bones from a stocking and swallowed it, thereby destroying the evidence.

The defendant will go to trial regardless, according to the police.

SHORT SKIRTED MOVIE STAR SLAPS OFFICER

NEW YORK—Ignoring style, Miss Margaret Curtiss, film actress, wore her skirts above her knees. Ignoring discretion, she slapped the chief of police who cautioned her. Shortness of dress and temper landed her in court.

LABOR COUNCIL PROTESTS SHIP SUBSIDY BILL

La Crosse Organization Forwards Resolution to Representatives in Congress

The La Crosse Trades and Labor council adopted the following resolution protesting the passage of the ship subsidy bill:

"Whereas, there is at present before the Congress, of the United States a bill commonly known as the Ship Subsidy bill, and

"Whereas, the provisions of this bill call for the expenditure of a very large sum of money each year to the shipping industry at present organized for private profit, and

"Whereas, our present administration has gathered in support of this bill all such legislators commonly called reactionary, and having the interest of the few at heart as against the interest of the nation, and

"Whereas, opposed to this bill are the 'Progressives' of every party united to prevent its passage by this Congress, and

"Whereas, there were elected at the last election a large number of 'Progressives' to the next Congress, who would be called upon to undo this legislation if it became a law, therefore be it

"Resolved, by the La Crosse Trades and Labor Council in regular meeting assembled, that we are opposed to this ship Subsidy bill as being against the best interest of the nation; as carrying out a policy opposed to the trend of the 'Progressive era' about to be inaugurated as taking out of the public treasury no one knows how large a sum and saddling on the nation a law that would have to be repealed in a short time, and be it further

"Resolved, That a copy of this resolution be sent to our president, the Hon. Warren G. Harding; our Senators Hon. Robert M. La Follette and Hon. Irvine L. Lenroot, and our Representative Hon. Joseph D. Beck and to the press."

MUSCATINE ELKS TAKE BADGERS INTO CAMP

MUSCATINE, Iowa.—The Fond du Lac, Wis., Cardinals, twice conquerors of the Beloit, Wis., Fairies, sustained the worst beating at basketball in their long history Thursday night, when the Muscatine Elks won here, 47 to 19. The great playing of Captain Lohr and Shimek, former Iowa university captain, was a feature of the contest.

OVER FIVE HUNDRED DOLLARS PER ACRE IS TOBACCO PROFIT

One Grower Near Sparta Gets Tidy Sum from Two-acre Tract of Leaf

TOMAH, Wis.—That Monroe county is admirably suited to the raising of tobacco, is shown by the following figures. Mr. Nordahl Anderson delivered to the Jefferson Leaf Tobacco company of Sparta a two acre crop of tobacco and received for it a check for $1,149.53 an average of $574.76 per acre. The entire output weighed out 5,027 pounds of good tobacco and 615 pounds of fillers. The price received was 27½ cents for good and 8 cents for the fillers.

At the annual meeting of the Monroe County Limited Mutual Tornado, Cyclone and Hurricane Insurance company reports of officers showed the organization in a flourishing condition. There were 789 policies in force on Dec. 31, a gain of 25 risks during the year of 1922. During the same period the amount of insurance in force, increased from $1,938,000 to $2,190,822, a total gain of $252,855. Twenty four losses amounting $3,392.11 were paid during the year. Total assets on hand on Dec. 31, 1922, amounted to $3,317.02. Officers for the present year ale President, J. T. Willgrubs, Sparta; vice president, Fred Muhlenkamp, Norwalk; treasurer, Peter Rademacher, Norwalk; secretary Peter Hammesbach, Norwalk.

An ice cream manufacturing plant will soon be opened up in this city by Irvin Kelk of Tomah and Avery Ranny buttermaker at the New Lisbon creamery for the past two years. A complete up-to-date equipment will be installed in the former office building of the Goodyear Lumber company. The proprietors are planning to manufacture not only for home consumption, but for out-of-town shipment.

UNITED STATES A NATION OF BIG MEAT EATERS

WASHINGTON, D. C.—The department of agriculture estimated the total meat consumption in the United States during 1922 at 16,332,000 pounds which amounts to 149.7 pounds per person, applying the July 1, 1922, estimate of population.

BANKERS BOUND OVER

MADISON, S. D.—Both W. J. Williams and W. S. Hall, former Winfred, S. D., bankers, who were arrested a week ago on charges of embezzling amounts of from $5,000 to $8,000 each, from a Winfred bank, waived examination at the preliminary hearing here before Justice R. Lyons. Both were bound over to circuit court under bonds of $2,000 each. George Steusland, also charged with embezzlement from a Winfred bank, applied for a change of venue.

A Written Guarantee to Grow Hair

Costs Nothing

Unless we grow hair. The Van Ess 3-bottle treatment is absolutely guaranteed. You are the sole judge. The warrant is signed by your own druggist. All we require is his signature showing you have purchased a ninety-day treatment. If it fails, we refund your money. Hence you assume no risk making this test.

No Hair—No Money is our proposition

We have a new method of treating the scalp. It grows hair. It stops falling hair. Under actual recorded tests it grew hair on 91 heads in each hundred treated.

This is to offer it to you. Results are guaranteed. If we fail, it costs you nothing. Your own druggist signs the guarantee—we assume the risk.

The name is the Van Ess Liquid Scalp Massage.

Infected Sebum

According to authorities, over 90% of all hair troubles are traced to infected Sebum.

Sebum is an oil. It forms at the roots of hair. Its natural function is to supply the hair with oil.

But frequently it becomes infected. It cakes on the scalp. It plugs the follicles and chokes them. It forms a breeding place for bacteria—germs by the millions feed upon the hair and destroy it.

It invites semi-baldness. Soon total baldness follows. But it seldom kills the hair root. Remove the infected Sebum—normal hair growth usually follows. This is scientific fact. We guarantee results in writing under 3-bottle treatment plan.

Now Science Overcomes It

The Van Ess treatment combats the infected Sebum and removes it. It penetrates to the follicles of the hair. It revives dormant hair roots and generally grows new hair.

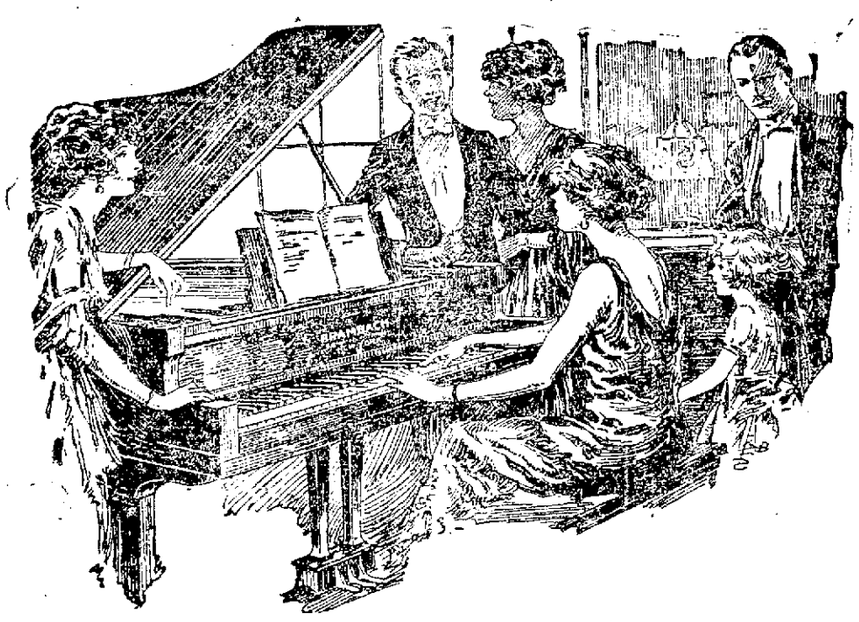

We urge you to try it.

Obtain it at your druggist's under 3-bottle treatment plan. Your money returned if results are not obtained.

Do Your Hands Tell Kitchen Secrets?

Beautiful hands now for the woman who does her own work. A new idea in soap.

Frankly, suppose you met a woman, say at a bridge party, and you couldn't help noticing how ugly and red her hands were—would you consider her charming?

Three women in four have ugly hands, because of using harsh, strong soaps for dishwashing and other housework.

And no woman with ugly hands *can* be attractive!

Unnecessary!

Now, even though you do every bit of your own work—down to the family washing—you can have the charm of lovely hands.

Avoid the use of strong household soaps. Never put your hands in suds made by these destroyers of skin fabric. Most of them contain 25 to 50% silicate of soda. This usually contains an excess of caustic—and it is this adulterant—not soap—that ruins your hands.

Most of the popular laundry soaps contain "filler." A chemical analysis of 28 brands showed "filler" in 27 of them.

Here it is

For years our chemists have been working on a laundry soap which would have superlative cleansing qualities without destructive qualities. At last we have made a soap which is unexcelled for the purpose. It is GREEN ARROW. It contains Olive Oil and other effective cleansing ingredients. While wonderfully effective as a cleanser it will not harm the hands nor the most delicate fabrics.

5c per month—for beautiful hands

Yet Green Arrow costs little more than old-time, hand-wrecking soaps.

Don't figure the cost of soaps at so much per bar. That is misleading. Green Arrow goes twice as far. Figure it at so much per month. It will cost you only about 5c a month more.

Do today as thousands of other women: Protect your hands with Green Arrow Soap. Your grocer has it.

Why Tell the World you do your own work?

Rough, ugly hands tell a story to the world. A story of the kitchen, the laundry, the scrub bucket.

Most women do housework. But few want to tell it to every chance acquaintance.

Most laundry soaps contain 25 to 50% water glass. This adulterant, technically known as silicate of soda, is invariably accompanied by an excess of caustic. It is this "filler"—not soap—that ruins hands. Green Arrow is made with the precision of a toilet soap and is *pure soap*.

Now you can have white and lovely hands regardless of how much kitchen work you do.

For your hands and your clothes sake, go to your grocer and insist on buying GREEN ARROW.

Green Arrow Soap chips, made especially for the laundry, offer the same advantage. The formula is the same. Use for fine hands and fine fabrics.

PROMINENT JURISTS DISCUSS PLANS FOR U. S. LAW INSTITUTE

Improvement of the Law Object of Organization to be Formed

WASHINGTON. — Probably the most distinguished gathering of the legal profession in the history of the nation assembled here Friday for the conference called by the committee on the establishment of a permanent organization for the improvement of the law to consider the formation of an American law institute. Primarily the function of the institute, as described, would be to remedy defects in the law and its application by its "analytical, critical and constructive" re-statement.

A report by the committee, of which Elihu Root is chairman, based on an exhaustive study of the question of improvement of the law and recommending to that end the formation of the institute, had been prepared for the consideration of the conference. The report, which Mr. Root was present to discuss in the principal address at the opening session today, not only points out some of the principal defects in the law, but suggests how, in the opinion of the committee, these may be remedied by the intelligent constructive effort of the legal profession. After a general discussion of the question, the program called for the taking of formal steps for the organization of the institute.

In addition to jurists, lawyers and law teachers from every state, the committee had invited to attend the conference, the chief justice and associate justices of the supreme court of the United States, the attorney general and solicitor general of the United States, the senior judge of each circuit court of appeals, the chief justice and associate justices of each state supreme court, and the president and members of the executive committee of the American Bar association.

At a dinner Friday night, following the conference sessions at Continental Memorial hall, Chief Justice Taft will preside and introduce as speakers, John W. Davis, president of the American Bar association and former ambassador to Great Britain, and Herbert S. Hadley, former governor of Missouri.

BANKS CLAIM TAX REFUND

NEENAH, Wis. — Two national banks of this city, which paid under protest taxes on their capital stock and surpluses aggregating $9,000, have filed claims for refund against the city. The claims are based on a ruling of the United States supreme court holding the stock and surpluses of banks untaxable.

GRAND FORKS, N. D.—The net total enrollment at the University of North Dakota for the year to date is 2,176, according to figures given out from the office of President Thomas F. Kane. This is an increase of approximately 15 per cent over last year, the number being 1,857.

POWER FAMINE AT MARINETTE DUE TO LOW WATER STAGE

MARINETTE, Wis.—The lack of a large amount of water in the Menominee river, which is used to supply electricity for the twin cities—Marinette and Menominee, Mich—has caused the shutdown of several manufacturing plants in the cities, according to A. J. Goedjens general manager of the Menominee and Marinette Light and Traction Company. According to Mr. Goedjens, the flow of water in the river is the lowest that it has been for the season.

In addition to the closing of the Pike river Granite Company's plant and the American Rule and Block company, both of Marinette, electric saws at the high school have been shut down and the people have been asked to use as little electricity as necessary in order to procure sufficient power.

The inactivity of the Menominee river came in the wake of one of the severest blizzards ever experienced by the light company.

VOCATIONAL SCHOOL STUDENT IS HURT; CITY IS NOT LIABLE

Supreme Court Rules Tomah School District Not Liable in Sullivan Suit

TOMAH, Wis.—The test case of Daniel Sullivan versus School District No. 1, City of Tomah, has been decided against Mr. Sullivan by the supreme court of the state of Wisconsin, in May 1922. Daniel Sullivan sued the district for $10,000 damages for injuries sustained while using a circular saw in the manual training department of the Tomah public schools. Sullivan lost three fingers from his left hand when the hand accidentally came in contact with the saw.

The supreme court sustained the decision of Judge Higbee of the circuit court that the school district is not liable for damages as claimed by plaintiff. Also that until the state legislature enacts a law making vocational schools responsible for injuries to pupils working on their machines, school districts are not liable for compensation for such injuries. Attorneys Graham and Moran of this city represented the plaintiff and the school district was defended by William B. Naylor. The best guard obtainable was placed on the saw four years ago and was approved by the state industrial commission. The guard was movable of course, and could be shoved out of place, but students in the manual training department had been forbidden to use the saw without the guard in place. At the time of the accident to Sullivan, it is stated that the guard had been moved out of place by some pupil, leaving the saw unguarded at the time it was used by Sullivan.

Justice Doerfler said when announcing the decision of the supreme court: "The doctrine of non-liability of a municipality for the performance of its governmental functions is so deeply rooted in jurisprudence that in effect it has virtually sustained the form of a statute. Manual training is now a constituent part of our system of education, and instruction in that branch involves the use of mechanical devices. But whether or not the doctrine of the non-liability of a school district should be changed is a matter which rests with the wisdom of the legislature not with the courts; and until the legislature by statute changes this we must consider it our duty to adhere to former decisions and pronounce in favor of non-liability."

Introducing PALM BEACH

Exquisite Toilet Soap

Palm Beach is the only olive glycerine soap that floats. Refreshing in fragrance, its bland, soothing oriental oils absorb all the impurities from the pores and remove the oils and blemishes from the skin's surface. The glycerine in Palm Beach aids materially in producing that velvety smoothness and clearness of skin every woman craves.

The Baby's Toilet Soap, Too!

Palm Beach keeps Baby's skin clean, white and soft with a healthy Palm Beach complexion. Palm Beach thoroughly cleanses the surface of Baby's skin as well as stimulates the new and tender tissues that are constantly replacing the old cells.

How Germany Is Defying The French Steam-Roller

Hugo Stinnes, Germany's richest man and, rumor says, the virtual dictator of her economic destiny, declares curtly concerning France's stranglehold on the Ruhr basin: "No negotiations by us. We shall fight it out." In terms equally explicit General Degoutte, commander of the French forces of occupation announces that "never, until Germany makes adequate settlement for the frightful wrongs and damages inflicted upon my country, will I order my troops to withdraw." And speaking in Dusseldorf to a representative of the Associated Press, General Degoutte declared, "I solemnly warn Germany if a single one of my soldiers is harmed and she forces another battle on us, she will not stay our hands by crying 'Kamerad'! It will be a fight to the finish—a complete knockout."

The leading article in THE LITERARY DIGEST this week (February 24) shows the progress of the French occupation of the Ruhr basin and presents public opinion upon the subject from all angles. This interesting article is graphically illustrated with half-tones, cartoons, and a map which shows the grip that France has upon industrial Germany.

FUN from the PRESS at Leading Theaters

is a treasure-trove for the orator, the after-dinner speaker, the salesman, and the great army of just good-natured people who like to spread sunshine at their daily toil by telling their neighbor a humorous story. For the person who loves to laugh, or who gains pleasure in imparting joy to others, "Fun from the PRESS" is a find. It is the cream of the world's current collection of mirth provokers. From every nook of both hemispheres The Literary Digest gathers the key newspapers. Out of these are gleaned the happiest hits in patter and anecdote, the funniest yarns and the brightest wit. And the best are incorporated in the humorous short reel, "FUN from the PRESS." So, if you want a good joke to enliven your speech, or a smart jest to stimulate your every-day conversation, you can get a fresh supply every week at all (leading) theaters showing FUN from the PRESS. SMOKY GASTON'S DOGS ARE WINNERS IN IDAHO DERBY

ASHTON, Idaho—Smoky Gaston of West Yellowstone Thursday won the American dog derby over a field of ten starters in 5 hours 9 minutes and 8 seconds. The race took the championship from "Tud" Kent of Buffalo River.

The defeated teams, which were chosen from more than a hundred which invaded Ashton, included those of "Tud" Kent of Buffalo River; Miss Lydia Hutchinson, Ashton; William Kooch, Big Springs; George Pilcher, Henry's Lake; William Trude, Island Park; Gilbert Berry, Squirrel; Olcot Zarn, Ashton; John Reber, Shot Gun Valley, and Clara Colwell, Greentimber.

Kent a Favorite

Kent, twice American champion, was favored to capture the race and was on the short end of all the betting. He wasn't alone in backing, however, for nearly every entry in the race had support.

"Lyd" Hutchinson, the only girl entry in the race, also was rated among the favorites, but her team was snowed under by Gaston. She entered her own team this year. In 1922 Miss Hutchinson competed under "Smoky" Gaston's number and drove a sensational race over the twenty-five mile trail.

EIGHT TEAMS START IN THE PAS DERBY THURSDAY MORNING

Pranteau, Indian Musher, Rules Heavy Favorite to Win Event

THE PAS, Man.—Eight teams, led by A. Russick of The Pas, driving a seven dog team, left the starting post on the Saskatchewan river here at 11 o'clock Thursday morning for the annual 200 mile nonstop race for the Burns cup and $2,500 in prize money. The start was made with light weather overhead. The trail, however, was heavy on account of recent blizzards and veteran mushers predicted that it would take twenty-six hours to complete the course. Russick was first to cross the line. Sam Pranteau, the Indian musher, ruled a heavy favorite. His heavy dogs took kindly to the drifted trail.

Favor Indian Driver

Russick held his lead over The Pas river hill which leads into the course towards Camp Eleven, 100 miles into the wilderness and the turning point. He was followed by S. Bjorkman of Winnipeg, S. Cook of Grand Rapids; Billy Grayson, driving C. B. Morgan's entry; Charles Stabback, driver for Creighton, Sam Pranteau, and W. Winterton.

Baptiste Campbell was late in getting a start. Bjorkman had trouble with his sleigh and had dropped far behind when the dogs disappeared from sight.

Sam Pranteau, the Indian musher, was considered a slight favorite to win the race. The drifted trail was considered favorable to Pranteau's heavy dogs. Charles B. Morgan of The Pas, winner for two successive years past, also was one of the favorites.

BABE RUTH BACK TO REDUCING WORK AFTER SLIGHT ILLNESS

HOT SPRINGS, Ark.—Babe Ruth Thursday was back to the strenuous task of reducing after a one day setback in his battle against avoirdupois due to a slight attack of grippe. Ruth kept to his hotel Wednesday but recovered to such an extent Wednesday night that he was able to attend a boxing match and Thursday was back to his training routine, which includes an early morning session amid steaming vapors, 18 holes of golf and an occasional mountain hike.

LEBEL'S HUSKIES WIN FIRST HEAT IN EASTERN DERBY

QUEBEC, Que.—The team of "huskies" owned by the Brown Corporation of Quebec, and driven by Jean Lebel, Thursday captured the first heat of the three day Eastern International Dog sled derby. Lebel finished twenty minutes ahead of his nearest rival in the race over a forty-five mile course to the Ste. Anne De Beaupre and return.

Seven teams started at five minute intervals in the first heat of the derby. Further heats will be run off Friday and Saturday.

The United States entry, that of E. P. Clark, West Milan, N. H., started fourth and did not better its position in the run to Ste. Anne. Arthur T. Walden of Wonalancent, N. H., winner of last year's race, had to withdraw at the last hour because of the death of several of his dogs.

THAW GETS VACATION TO VISIT HIS MOTHER

PHILADELPHIA, Pa.—A formal application temporarily releasing Harry K. Thaw, slayer of Stanford White, from the Pennsylvania Hospital for the Insane, so that he can visit his mother, Mrs. Mary Copley Thaw in Pittsburgh, was signed by Judge J. W. Martin on Tuesday.

Thaw will be released at once under guard during his vacation and will return not later than March 3.

The plea for Thaw's "vacation" was signed by his mother.

THIS MAY BE LAST WEEK OF SKATING AT PETTIBONE RINK

House May be Closed on Sunday if Patronage Continues on Decline

Whether or not Pettibone lagoon will continue to be kept in condition for skaters the remaining weeks of the winter will be determined by the support given the La Crosse Outdoor Sports association in the next few days.

The rink has been operated at a loss for the past two or three weeks, in spite of the fact that fair crowds have made use of the rink for skating.

The ice will be in good condition Friday night, Tanke announces, and this week will perhaps be the last on the lagoon. Let's turn out and make it a whirlwind finish.

The pin was first heard of in 1540.

BORAH ACCEPTS INVITATION TO VISIT RUSSIA

WASHINGTON.—Senator Borah, republican of Idaho, said Thursday he had received and accepted, provisionally, an "unofficial" invitation to go to Russia as the guest of the government. He has decided to go, he said, if conditions make it at all possible.

AMERICAN LEGION OPPOSES WIPING OUT OF MILITIA

Local Post Adopts Resolutions Protesting Against Bill in Legislature

"Whereas a bill has been introduced in the Wisconsin legislature providing for the complete elimination of the Wisconsin National guard, be it, therefore,

"Resolved, That the American Legion auxiliary of Roy L. Vingers post, No. 52, of La Crosse, Wis., strongly opposes the passage of any such bill.

"That the above named organization urges the local representative in the assembly and the state senator from this district to use their whole influence to prevent the passage of this bill.

"That a copy of this resolution be furnished Representative Henry Nein and Senator R. C. Clark, and also the La Crosse Tribune and Leader Press for publication.

"Respectfully submitted,
"THE AMERICAN LEGION AUXILIARY, ROY L. VINGERS POST, NO. 52
By K. A. FOSTER, Secretary."

MONROE COUNTY PLANS CLUB WORK ON BIG SCALE

SPARTA, Wis.—County agricultural Agent L. Lile and Miss Harriet Hayden, county superintendent of schools, are making plans for more extensive club work among the boys and girls than has hitherto been done. They have sent a letter to the teachers, as follows:

POPE HONORS DULUTH BISHOP

DULUTH, Minn.—Pope Pius XI has appointed Rt. Rev. John T. McNicholas, Catholic bishop of Duluth, bishop assistant to the throne at Rome, according to a cable from Rome received here. The title is purely honorary and will not necessitate Bishop McNicholas' attendance in Rome.

MOVIES

CASINO TODAY

The situation which gives "Who Are My Parents?" its title is among the most touching moments of the story.

An interesting member of the cast is Peggy Shaw, a former Ziegfeld Follies beauty, who shows fine acting ability. Roger Lytton, Florence Billings, Ernest Hilliard, Robert Agnew, Adelaide Prince, Niles Welch and Marie Reichardt are the other principal players. Jimmy Lapsley and Floreen Hays, two exceptionally clever children, are employed in the picture.

"Who are My Parents?" is at the Casino Theatre today.

"STRANGERS' BANQUET"

A screen version of Donn Byrne's well known novel, "The Strangers' Banquet," is the feature at the Rivoli theater. This is Marshal Neilan's latest photoplay, surpassing even such fine pictures as "Dinty" and "Fools First."

It has a superlative cast, headed by Hobart Bosworth, Claire Windsor and Rockliffe Fellowes. Mr. Bosworth, who at Neilan's urgent request interrupted work on his own production to play the part of the millionaire ship builder Shane Butler Keogh, gives a magnificently fine performance. The role of Derith Keogh, his daughter, who at her father's death is left to carry on his work practically alone, is beautifully portrayed by Miss Windsor, who is unusually well equipped for the demands of the role; and Rockliffe Fellowes gives a sympathetic performance as Angus Campbell, one of old Shane Keogh's most loyal aides, and in love with Derith.

"WILDFIRE"

One of the greatest racing films ever made is at the Majestic theater this week and should appeal to every person who likes race horses, rapid action melodrama in his screen bill of fare. It is called "When Romance Rides" and is founded upon Zane Grey's most widely read novel, "Wildfire."

"When Romance Rides" may be summed up as the most colorful and swift-moving of Zane Grey's pictures. The horse race at the rodeo when Claire Adams rides Wildfire in the free for all race to beat the villain at his own game, is almost as good and as thrilling as the real thing.

But the race fades in power before the big climax in which the kidnapped Lucy is tied to the back of a horse by a half-witted man and would have been killed in a plunge over the precipice had not Carl Gantvoort rescued her in the nick of time.

RADIO THIEVES BUSY

WORTHING, S. D.—Stealing of radio outfits is the newest line of thievery reported here. The latest victim is G. M. Bremner, a local elevator man. The thief or thieves seemed to have been familiar with the outfit, as all of the connections were carefully removed, instead of being cut. The outfit was valued at more than $100.

HEARINGS ON BILLS FOR NEXT WEEK TO COVER WIDE RANGE

Wisconsin National Guard Again in Limelight With Appeal for Funds

MEMORIALS ASK REPEAL OF ESCH-CUMMINS RAILWAY ACT

Recall of Elective Officers Provided Under Huber Bill

MADISON, Wis.—By The Associated Press.—Committees of the legislature during the coming week will concern themselves with a wide range of important subjects, hearing schedules announced Friday by the various chairmen show. The state national guard will again be in the limelight of committee consideration.

Adjutant General Salsman will appear before the joint finance committee on Tuesday to explain the appropriation request of his department while on Thursday the senate state affairs committee has the Polakowski bill, calling for abolition of the guard, under consideration. An appropriation of $600,000 annually is being asked.

Two memorials to congress asking repeal of the Esch Cummins railroad law are before committees, one in the senate and the other in the assembly. The corporations committee of the upper house on February 28 has one resolution asking repeal and the assembly judiciary committee the other on the same date.

Recall of all elective officers of the state and counties, including judges, is asked in a resolution providing for a constitutional amendment, before the judiciary committee of the senate on Tuesday, February 27. This resolution introduced by Senator Huber together with a bill by him providing for the recall of appointive officers of the legislature are both before the judiciary committee on that day. They are introduced with the backing of the administration.

The Morris bill stringently regulating the sale of narcotics in Wisconsin is up for hearing before the joint meeting of the senate committee on education and public welfare and the assembly education committee on February 27. At that time the committees will also hear the Rakr bill lowering compulsory education requirements of the state and the Polakowski bill providing an appropriation of $150,000 for the construction of an extension building at Milwaukee.

On Thursday of next week the senate committee on education and public welfare considers a bill by Senator C. B. Casperson repealing the state bureau for the care of the blind established by the 1921 legislature. A similar bill by Assemblyman Grimstad is before the lower house committee on the same day.

The senate corporation committee on February 28 hears the Teasdale bill making it a misdemeanor for any owner of a building to charge rental in excess of 10 per cent of the actual investment in that building. This measure is aimed to curb high rentals being charged in cities of the state. It carries with it a heavy fine for violators.

Possession of firearms by unlicensed persons would be prohibited under two bills before the assembly public welfare committee, one by Assemblyman Dettinger and the other by Assemblyman Koch. Both proposals are extremely drastic in the provisions and carry heavy penalties for violation.

The Peterson resolution memorializing congress to make it treason for the Ku Klux Klan or any similar organization to refuse to divulge its membership is before the assembly judiciary committee on February 28. The senate corporations committee on March 1 is to hear the Schumann bill requiring railroad companies to mark all grade crossings and requiring drivers of automobiles to stop before crossing railroad tracks. This measure is intended to reduce the number of grade crossing accidents.

A number of other minor bills are up for hearing at the week's sessions.

JOINT RECITAL AT NORMAL SCHOOL IS EVENT TONIGHT

The joint recital of Mr. Glen Halik and the Normal school band Friday night should be of more than passive interest to the La Crosse citizens. Those who are planning to hear the concert will have the opportunity to hear the best band in the history of the school. Of the forty-five members, a great majority are La Crosse boys.

Mr. Glen Halik the soloist of the evening is also a La Crosse boy, one who has made a national reputation for himself. In the arrangement of his program Mr. Halik has exhibited his artistic taste for to select and arrange a concert is fully as delicate a task as to render one.

In the opening of the concert, Mr. Halik will play a Concerto of Mendelssohn's pleasing melodies. The distinctly different movements of this concerto in E Minor cannot fail to please and those who will not be enthused over the Andante or Allegro Molto movements will find enjoyment in the Allegro non troppo or the Vivace. The Concerto is a selection which will enable Mr. Halik to display his artistic ability in the best light.

At the close of the program Mr. Halik will render the more popular type in the Ballet, Rosamunda—Schubert—and Kreisler, and Kreisler's "Old Irish Melody."

Much effort is being spent by Mr. Joseph Leeder and the members of the band, to make this concert a successful one, both from the musical standpoint and the financial end. The admission is only twenty-five cents.

LOCAL ROD AND GUN CLUB WILL DISCUSS BILLS

Important Meeting of Organization to be Held With Legislators Saturday Night

The La Crosse Rod and Gun club will hold a mass meeting at the county court house Saturday evening, Feb. 24, for the purpose of going over the proposed changes of the game laws introduced in the session of the state legislature. It is requested that all members of the club attend the meeting to voice their protest against the proposed game laws, also will have an opportunity of talking to Assemblymen Henry Nein and W. F. Miller, and Senator Clark, who are the representatives of the district at Madison.

Furthermore, the Galesville Conservation club, West Salem Fish and Game Protection club and the Mormon Coulee Gun club will have representatives at this meeting.

At the annual meeting of the club the following officers were elected: F. A. Grover, president; Fred Haller, vice president; William Panke, secretary; Bert Jolivette, treasurer.

Bills Opposed

Following are bills opposed to by the La Crosse Rod and Gun club:

Bill No. 73S in senate, introduced by Mr. Burke:

To amend subsection (2) of section 29.54 of the statutes relating to the picking and destruction of wild game birds' foods, to include paragraph reading "Nor permit the destruction thereof by any domesticated animal owned by him or under his control."

Farmers owning bottom lands and their cattle pasturing thereon no doubt would destroy some of these natural foods of wild game birds.

Bill No. 54A in assembly, introduced by Mr. Price:

To amend subsection (1) of section 29.24 of the statutes to include, or to hunt raccoon with the aid of dogs, which does not prohibit the hunting of them with a dog. No conviction possible if a person is caught hunting with one dog.

Bill No. 67A in assembly, introduced by Mr. E. A. Johnson:

To open the season on pike and pickerel in Burnett county 15 days earlier. Objection to this bill is that these fish are not through spawning at this time in delayed seasons.

Bill No. 69 in assembly, introduced by Mr. E. H. Johnson:

Under this bill it would be impossible to enforce the muskrat law.

Bill No. 80 in assembly, introduced by Mr. Sachtjen:

Relating to seizure and confiscation of appliances and apparatus of violators of the fish and game laws. Leaving it to the discretion of the (courts) to decide the disposal of same.

The present law of seizure and confiscation as it is in section 29.05, subsection (7) of the present statutes has stood the test for years successfully.

Bill No. 109 in assembly, introduced by W. F. Miller:

Adding a new subsection to 29.21 of the statutes in regard to having the waters of one-third of the state closed to trout fishing for a period of three years.

This would have a tendency to concentrate all trout fishing to these open sections and would therefore deplete these sections more rapidly. It would also have the same effect on the closed sections after they were opened.

Bill No. 122A in assembly, introduced by Mr. Lindahl:

Relating to closed season on partridge and prairie chicken in odd numbered years.

Objected to because under the present law the partridge and prairie chicken have increased wonderfully.

Bill No. 124A in assembly, introduced by Mr. Lindahl:

To amend paragraph (c) of subsection (2) of section 29.18 of the statutes relating to closed season on deer in even numbered years.

Objected to because this would allow the killing of either sex of deer and would rapidly exterminate the deer.

The repeal of the one buck law would increase the hazard of human life in the north woods.

Bill No. 127 in assembly, introduced by Mr. Blomberg:

Objected to this bill because no provision is made to inform people when they are fishing on section 18, 19, 20, 30 and 31, in township 40, north, range 1 east, in Price county, on the waters of Murray creek, which waters would be closed for trout fishing, thereby causing innocent people to violate the law.

Bill No. 193 in assembly, introduced by Mr. Liehe:

To amend subsection (19) of section 29.18 of the statutes relating to open season on crane.

Objected to because it conflicts with the federal migratory bird regulation, also because the sand hill crane is almost extinct in this state and is a harmless bird.

Bill No. 201 in assembly, introduced by Mr. Summerville:

To amend paragraph (a) of subsection (9) of section 29.18 of the statutes relating to open season for rabbits.

Objected to because there should be a uniform closed season on Rabbits in all counties of the state.

At present an owner or occupant of any land or any member of his family may without a license hunt thereon rabbits at any time.

BREAD IS THE BEST AND CHEAPEST FOOD

Wingold PATENT FOR ECONOMY'S SAKE. MAKES MORE LOAVES PER SACK

MORNING STAR MILLS—A. Grams & Sons. La Crosse.

LOOK For the Seal of QUALITY --It's the Best Flour Made

If you want the best flour made, then insist that the sack the boy delivers has this seal on it—Hormel's Quality Flour. You'll find that you get more loaves per sack, that you'll like the distinctive nutty flavor, that each batch of bread will stay fresh longer and that the family will notice the difference at once.

The reason Hormel's Quality Flour is the best is because it is made from selected hard spring wheat, the best grown, and because of its **special milling process.**

It's guaranteed to please—money back if it doesn't. Why not order a sack at once? If you don't like the results we'll buy it back from you. That's a fair proposition, isn't it?

REPEAL OF STATE EUGENICS LAW IS ASKED BY SPOOR

MADISON, Wis. — Assemblyman Newcomb Spoor, Berlin, is going to attempt to wipe out the state eugenics law which requires medical examinations of men before they can be granted marriage licenses.

The law has been on the statute books of the state for 10 years. Spoor's bill which he is preparing follows the attempt of women organizations to include women under the terms of the law as embodied in the Barber bill which was defeated several days ago.

In the African desert the thermometer sometimes reaches 150 degrees.

HOUSTON NEWS

HOUSTON, Minn.—Mrs. Abbie Vance, widow of the late Calvin Vance, died Wednesday morning at the St. Francis hospital in La Crosse after an illness of some years, aged seventy-one. Deceased was one of the early settlers, coming here from Vermont with her parents, the late Mr. and Mrs. Aaron Vance, and was among the first settlers in the village of Money Creek where she made her home, with the exception of the past few years when she moved to Houston. She was the sister of W. A. Vance and Mrs. D. C. Dyer of this village.

Mrs. Vance will be remembered by the present generation as a woman of loyal and christian character, always ready to help those who were in trouble and sickness and who led a life of perfect unselfishness.

Funeral was held from her home Friday afternoon Rev. C. McKinney of the Presbyterian church officiating. Interment in the cemetery at Money Creek.

The Commercial club will hold a meeting at the opera house Tuesday evening, March 27th, to which members are invited to bring their wives and lady friends. After the business meeting, a radio program will be listened to and refreshments served.

The Seniors and Juniors enjoyed a sleigh-ride and party at the home of Miss Clara Eberhard at Mound Prairie Wednesday evening.

The Ladies' Aid of the Presbyterian church will be entertained at the home of Mrs. F. C. Schonlau Thursday afternoon. Assisting will be Mesdames D. O. Ridding, Harvey Harris, G. E. Comstock and Miss Lucy Campbell.

The patriotic meeting given by the rural carriers at the opera house Thursday drew a very large crowd. The decorations were beautiful and a splendid program given by the members of the carriers' families and others was much enjoyed.

At the special meeting held Wednesday by the congregation of St. Peter's Lutheran church to act on the resignation of the pastor, it was voted not to accept it.

The Misses Dena Hanson, Anna Elckum, Nellie and Blanch Comstock, Louise Abrahamsen and Minnie Nelson were La Crosse visitors the past week.

Mesdames Emil Andersen, Arthur Benson, Charles Bank and G. E. Steves were La Crosse shoppers the past week.

Mr. and Mrs. Olaf Grasby and Mrs. Henry Holms of Rushford are the guests of relatives.

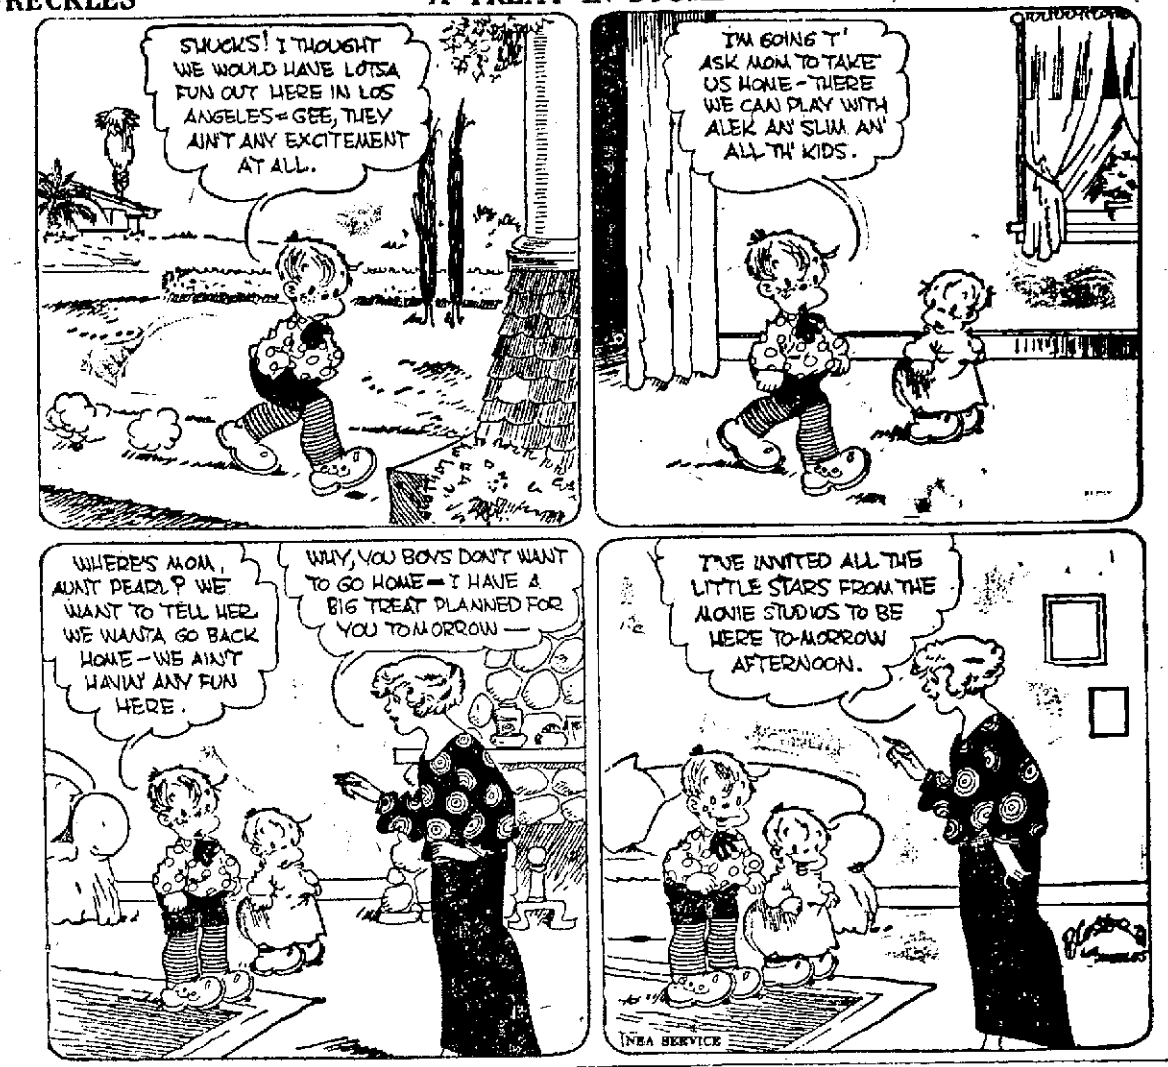

COPS NAB COYOTE ON CHICAGO CANAL BANK

CHICAGO.—By the Associated Press.—A flivver squad of three patrolmen captured a coyote on the bank of the canal after a mile chase on Tuesday. One of them knocked it down with a club and the others leaped on it. The animal was a pet of R. B. Blome.

NEW YORK STOCK MARKET

NEW YORK—Opening prices in Friday's stock market were irregular but the main tendency was downward. Raising of the local Federal Reserve bank's rediscount rate resulted in some selling of the most popular industrial shares, Baldwin, California Petroleum and Stewart Warner each opening a half lower. Famous Players dropped a point. Higher gasoline prices induced buying of some of the oil shares, producers and refiners being among the first to rise to the higher ground.

Selling pressure was most effective in shares of coal carrying railroads, foods, tobaccos and independent steels. Gulf States Steel dropped 4¼ points in reflection of speculative disappointment over the dividend while Stromberg Carburetor dropped 2⅜ on profit-taking. Losses of one to two points also were recorded by Corn Products, Jones Brothers' Tea, United Retail Stores, Vanadium Steel, General Asphalt, Famous Players, United States Alcohol and American Smelting. Louisville and Nashville climbed two points to 152, a new high record, and Illinois Central improved fractionally but Delaware and Hudson, Norfolk and Western, Reading and Chicago and Northwestern were heavy. Among the few strong spots were American Cotton Oil preferred, International Agricultural Chemical preferred and May Department Stores. Foreign exchanges were steady.

While the raising of the rediscount rate by the Federal Reserve bank was regarded in some quarters as a warning to the speculative fraternity, several expert market observers nevertheless construed it as a bull factor. Pool operations, which was suspended in a number of shares at the start of the session in order to determine how much selling pressure would develop as a result of the higher rediscount rate, were resumed before mid-day and prices again tended upward with Baldwin, Studebaker and Gulf States Steel rallying a point or more from their lowest levels. Losses of one to two points were quite common among both rails and industrials before the reaction was checked. A few issues displayed conspicuous strength, notably American Locomotive, American Can, General Electric and American Woolen, the last named rising 1¾ points to 105½, a new high record for the year. Call money opened at 5¼ per cent.

When it became evident that there was little outside selling to help the bear pressure, speculators on the long side of the market began to buy freely. All of the sugar shares were bid up strongly in response to the higher prices for the raw and refined products. Inspiration moved up 4¼ on its dividend resumption and Studebaker, Producers and Refiners, North American and Montana Power improved one to two points.

The closing was irregular, professional traders began to sell the customary leaders when call money was marked up to six per cent. A number of the specialties, however, continued strong. Eastman Kodak up more than two points and Porto Rican Tobacco up 6¾, being two of the late features. Sales approximately 1,150,000 shares.

CHICAGO GRAIN MARKET

CHICAGO, Ill.—Wheat lacked support Friday during the early dealings, and underwent a sharp drop in values. With eastern selling in evidence again, May delivery fell to $1.17¼ and for the first time in a long while buying at $1.19 failed to develop. Setbacks in quotations at Liverpool and Winnipeg had a depressing effect here, and so, too, in some degree did Washington reports of delay to proposed farm credits legislation. The opening, which varied from ⅜ to 1½c lower, with May $1.18¼ to $1.19 and July $1.14½ to $1.14⅞, was followed by material further losses.

No important rally took place. The close was unsettled at 1⅜ to 2¼c net decline, with May $1.17¾ to $1.17⅞ and July $1.14.

Corn and oats sympathized with the weakness of wheat. After opening ⅜ to 1c lower, May 74¼ to 75c, the corn market continued to sag.

Reports were received that heavy rains in Argentina the last few days had improved the Argentina crop outlook. Prices closed unsettled, ⅝ to ⅞ to 1c net lower, May 74½ to ⅝ to 74⅝c.

Oats started ¼ to ⅝c off, May 45¼ to 45½c, and later showed a further break.

Provisions were comparatively firm despite lower quotations on hogs.

MILL CITY POLICE OFFICER HELD FOR NEGLECT OF DUTY

MINNEAPOLIS, Minn.—A warrant for the arrest of A. C. Jensen, superintendent of police, based on four indictments returned recently by the county grand jury, was issued Friday and placed in the hands of Sheriff Earle Brown for service.

Chief Jensen, who is charged with "wilful neglect of duty," in failing to close up gambling and disorderly houses, has been relieved of duty at his own request pending disposition of the charges.

Later Jensen appeared at the office of Sheriff Brown, where the warrant was served. Inspector John J. Calvin, senior police officer, took over the duties of chief during Mr. Jensen's absence.

FIRE BREAKS OUT IN IDAHO MINE NO ONE INJURED

Miners all Brought to Surface and Accounted for; Blaze Brought Under Control

WALLACE, Idaho.—Fire which broke out on the 400-foot level of the Hercules silver lead mine at Burke, Idaho, late Thursday night, was believed to be under control at an early hour Friday, according to a telephone message to the Press-Times here.

The fire was discovered at 10:30 o'clock and within thirty minutes all miners had been cleared to the surface and accounted for.

The Hercules helmet crew started work at once. The fighters were joined by a crew from the nearby Hecla mine and later by men from the Tamarack mine and the Morning mine at Mullan, Idaho.

The report said that the crew had gotten water to the fire and expected to have it out in a few hours. The origin of the blaze has not been determined.

SENATOR UNDERWOOD RETIRES AS SENATE LEADER FOR DEMS

WASHINGTON.—Senator Underwood of Alabama has closed his long service as democratic floor leader of the senate. Accompanied by Mrs. Underwood he has left here on a four months' European tour, following the completion of all the regular appropriation bills of the session and assurance from President Harding that there would be no early call at least for an extra session of the new congress.

The senate minority leadership Friday virtually fell upon Senator Robinson, of Arkansas, who is slated to be chosen in the next congress as the successor to Senator Underwood, who announced last November that he would retire from the leadership with the end of the closing congress. Senator Underwood's health has been somewhat impaired by throat trouble and his physicians had advised a long rest to restore his speaking powers.

SAYS U. S. NEEDS SHIPS TO HOLD ON TO TRADE IN EAST

Facilities Better Now than at Any Time Before Says Peking Attache

MILWAUKEE, Wis.—Without a merchant marine America will lose its trade in the Far East Julian Arnold, commercial attache of the American legation at Peking, said recently while speaking before the Association of Commerce here.

"American shipping facilities are better now than at any time," he said. "Ships are the water extension of the railways. Unless we maintain a strong mercantile marine under the American flag in the Pacific, our contract with China will decline in importance rather than increase."

America is physically closer to China than most Americans realize, Mr. Arnold pointed out. The shores of Asia can be seen from the United States in Alaska. Engineers state that it is possible to tunnel Bering straits and connect New York with Peking by rail.

RIVER RISES AT WINONA

WINONA, Minn.—The Mississippi river at this point is gradually rising after dropping to a stage exceeded only once since records have been kept here. The recent fall reached a point nine-tenths of a foot below what has been designated here for many years as low water mark.

Beautiful Actress Attributes Her Wonderful Success To Her Famous Complexion

Tells How You May Also Have One

Los Angeles, Cal.—When Dorothy Dalton, the beautiful actress, was questioned as to the secret of her phenomenal success, she said: "My friends have always raved about the texture and coloring of my skin and I have no doubt but that my first engagement was made possible through the reputation I had acquired for having an attractive complexion.

"I think the best asset any girl or woman can have is a beautiful skin and complexion. They may have irregular features, but if they possess a beautiful complexion they will attract attention anywhere.

"Cleanliness is one of the first essentials. At night before retiring I always cleanse my skin with a good cold cream. (Liska cold cream I have found to be the best). Before going out during the day or evening I apply Derwillo, a simple toilet preparation. I find it excellent for my complexion, as it protects my skin in all kinds of weather. That's why I prefer it to all other toilet preparations and am never without it. Many of my professional friends to whom I have recommended Derwillo use it in preference to all other beautifiers."

The first application of Derwillo will astonish you. It imparts instant beauty to the skin and makes a rosy-white complexion everyone will admire. Use it before going to the theatre, dance or afternoon call and note the favorable comments of your friends.

It puts a life-like tint on your cheeks which defies detection; takes the place of face powder and stays on until you wash it off. Perspiration does not affect it nor will it rub off on clothing. It also prevents the nose and face from shining and is wonderful for a dark, sallow, rough skin, blackheads, coarse pores, oily skin, tan and for the instant beauty it imparts.

Over one million are using it. It is absolutely harmless to the most sensitive skin. Just try it once and you will need no further argument to convince you that there is nothing "just as good," "better," or "just like it." Insist on Derwillo, then you will not be disappointed. It comes in three shades—flesh, white and brunette.

Dorothy Dalton

NOTE—Druggists and department stores everywhere sell Derwillo and Liska cold cream with the guarantee that if you don't like them you get your money back. Derwillo is the one beautifier that gives satisfaction at all seasons of the year. You can secure it at all toilet counters in this city, including Hoeschler Bros.
